## THREATS OF STRIKE ARE HEARD IN MANY U.S. LABOR CENTRES

Thousands Involved in Walk-Out Plans in Automobile Factory Cities—Three Thousand Miners Lay Down Tools—Oil Field Workers Plan to Take "Holiday"

**A** THREATENED strike of Fisher body plant employees at Flint, Mich., was temporarily called off last night pending outcome of a hearing on Michigan labor difficulties at Detroit next Wednesday, called by the Federal Labor Board.

James F. Dewey, conciliator for the National Labor Board at Flint, said he believed employees of the Buick Motor Company would take similar action. Employees of the Hudson Motor Car Company, today, are to consider the matter of postponement. In all, some 30,000 workers were involved.

### TO VOTE TOMORROW

The demands include a 20 per cent wage increase, forty-hour maximum week, and recognition of union rights. Labor leaders estimated 25,000 workers would quit at Detroit and Flint, and 7,000 more at Cleveland. If a strike vote Thursday were favorable.

Seventeen persons were arrested in a street fracas with police at the Milwaukee plant of Seaman Body Corporation, where pickets were enforcing a strike. They were charged with disorderly conduct. In various automotive factories at Racine, Milwaukee and Kenosha, Wis., 5,000 employees were on strike.

**THOUSANDS INVOLVED**  
At several other centres the industrial mechanism was missing a beat under the depressing influence of walk-outs and threats. More than 50,000 workers had quit, or threatened to.

Seven textile workers picketing a mill at Spindale, N.C., were jailed on charges of forcible trespass and assault, during an encounter with police. About 250 employees were idle.

Oil workers in the Seminole, Okla. field contributed a new idea in walk-outs, announcing they would take a forty-eight-hour "holiday" if Continued on Page 2, Column 5

## SEDITION TRIAL NEAR THE END

Evidence Is Concluded in Hearing of Charge Against A. E. Smith

**TORONTO, March 6 (CP).—**Evidence in the sedition trial of A. E. Smith, veteran Methodist minister, and now general secretary of the Canadian Labor Defence League, had concluded tonight.

Members of the "red squad," three detectives detailed to cover addresses which might prove troublesome, testified that Smith, speaking in Hygeia Hall last January 17, had said "I charge Bennett and hold him responsible for the shooting of Tim Buck." Smith denied having said this.

### ONLY STATED FACT

He had, Smith contended, only stated what was fact. "The fact is, someone tried to murder Tim Buck in his cell on October 20, 1932."

E. J. McMurray, K.C., who came from Winnipeg to defend the Defence League secretary, asked what intention had prompted him to refer to the shooting of Tim Buck.

"I intended to arouse public opinion in support of our fight against being about an investigation into conditions at Kingston Penitentiary and particularly into the alleged shooting of Tim Buck."

### HIS OWN STORY

Smith was allowed to tell, in his own words and without interruption, what he had said in his controversial address at Hygeia Hall. He had, he said, said, on the growth of the Workers' Theatre Movement and the action of the Government in silencing the play, "Eight Men Speak."

## MINES ENGINEER LEAVES SERVICE

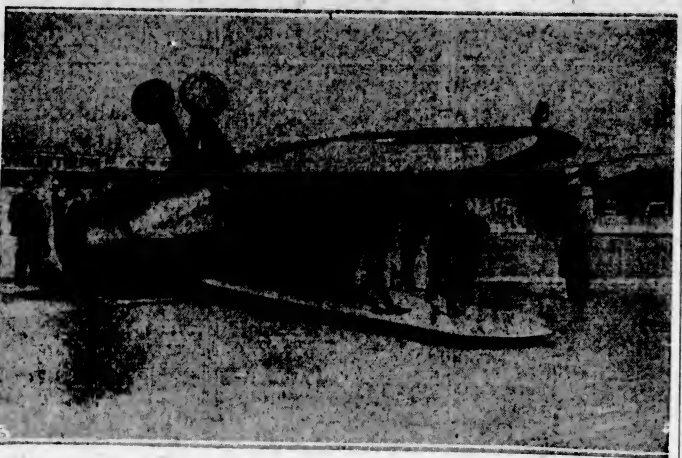

G. A. Clothier Resigns From Provincial Department to Enter Private Business

Resignation of G. A. Clothier, who as resident engineer at Vancouver had charge of Provincial mining matters in the Portland Canal, Alice Arm, Queen Charlotte Islands, Bella Moola, and Cassiar areas of No. 1 Mineral District, was announced last night at the British Columbia Department of Mines.

Resigning to enter private business on his own initiative, Mr. Clothier was one of the senior officials of the department, which he joined at the inception of the Mineral Survey Act about 1917. He was highly thought of in the service, and his loss will be felt.

The resignation, coming on top of that of John D. Galloway, formerly Provincial mineralogist, strips the department of two of its technical men within recent weeks.

## U.S. Army Mail Plane Turns Somersault

AN army mail plane flying from Salt Lake City to Los Angeles landed at Grand Central Air Terminal B. Walsh, was uninjured, but the ship was considerably damaged. The mail sacks were unharmed.

## School Act Changes Would Raise Grants And Extend Tuition

Three Years to Be Added to Age of Free Tuition in B.C. Schools

**CITY TO BENEFIT BY \$10,500 SOON**

Increase in the age of free tuition in British Columbia public schools by three years, and an increased minimum basis for provincial grants to elementary and high school teaching salaries which will give Victoria \$10,500 and Vancouver \$75,000 additional this year, were announced in the Legislature yesterday by Hon. Dr. G. M. Weir, Minister of Education.

He introduced for first reading a Government bill to amend the Public Schools Act embodying these and other changes.

Of the widest possible application is the proposed increase in the age of "free" tuition from six to fifteen at present, to six to sixteen years.

**RAISE OF \$130**  
Minimum high school grants per teacher to \$75 above elementary rate in each area. In this city and in Vancouver the increase in respect to each high school teacher would be \$130.

The grants in respect to a junior high school teacher would be \$25 below the high school rating, for Continued on Page 2, Column 5

## Whipping Not Right Way to Train Snakes

**SAN FRANCISCO, March 6 (AP).—**Bitten more than 100 times by poisonous snakes, F. M. Weidmann, of San Francisco, rounded out today thirty years as a trainer of reptiles.

Apparently immune to the peril of their deadly fangs, he gets a head-ache as the poison goes through his system, then he takes a big drink of water and shortly is normal again.

"I found that you cannot whip a snake," he said. "Although they are intelligent, they do not understand why they are being disciplined, and, therefore, I always treat them with kindness."

## Measure to Legalize Sweepstakes Again Approved by Senate

Bill to Allow Lotteries for Hospital Purposes Passes Second Reading by Large Majority—Much Debate Expected in House

**OTTAWA, March 6 (CP).—**Legalization of sweepstakes for hospital purposes received the approval of the Senate for the second time tonight when the Upper House of Parliament passed Senator G. H. Barnard's bill on second reading. The vote was 40 to 23.

The measure now goes to committee of the whole in the Senate on Thursday, and when finally approved, will come to the House of Commons. Last year the Senate passed a similar bill introduced by Senator A. D. McRae, but it met with overwhelming defeat in the House of Commons.

The measure will go to the Commons this year with the assurance of Premier R. B. Bennett that a wide-open debate and a free vote with party lines withdrawn will be permitted. This assurance was given at the recent Dominion-Provincial Conference, when Premier Bennett, however, is personally opposed to the move.

## NO RETRENCHMENT APPEARS IN NAVAL BUILDING PROGRAMMES

Steady Work of Replacement Provided for in British Estimates—Paris to Build Another Battleship, and Heavy Airplanes of New Types—Italy May Follow Suit

## U.S. Senate Authorizes Vast Construction Plans

**LONDON, March 6 (CP).—**Continuation of a steady programme of replacement was provided for in the British naval estimates issued today, while at Washington a new bill for \$500,000,000 for the navy was under discussion. At Paris the Chamber was acting on a proposal to build another battleship, and at Rome there were rumblings the French step would lead to new Italian construction.

The British estimates provide for four new cruisers, a destroyer flotilla leader and eight destroyers, an aircraft carrier and smaller auxiliaries, including three submarines. Except for the aircraft carrier this is the normal yearly building for replacement, although cruisers are increased from three to four to offset last year's reverse—from four to three.

**UNDER THE TREATY**  
Britain is permitted to build the aircraft carrier under the London Naval Treaty, which also is kept in mind in listing the construction to be undertaken until the end of 1936. Actually, however, the vessels completed by the end of 1936, when the treaty expires, cannot be added to by the present programme, so far as cruisers go at least, because of the time necessary for building.

Evidence that Britain does not intend her forces to sag any lower, however, was given in the provision for increase of about 2,000 in naval personnel, to bring to 93,222; in the provision for adding two squadrons to the fleet air arm, under the recent armistice; and in provision for continuing work on the Singapore naval base.

**OVER-AGE CRUISERS**  
Owing to the restrictions imposed by the London Naval Treaty, Britain will be forced to retain a considerable proportion of over-age cruisers to keep her cruiser fleet up to the figure of fifty accepted as the maximum under the treaty.

Last year's programme being that last that will result in completed ships by the end of 1936, the Continued on Page 2, Column 3

## DR. WYNEKOOP IS CONVICTED

Chicago Woman Physician Sentenced to Long Term for Murder

**CHICAGO, March 6 (AP).—**Dr. Alice Lindsay Wynkoop was convicted tonight of the operating table murder of her daughter-in-law, Rheta. She was sentenced to twenty-five years in prison.

Rheta Gardner Wynkoop was found slain the night of last November 21, on her mother-in-law's surgical table, in the basement of the gloomy Wynkoop mansion, on West Monroe Street.

**GIVE TWO MOTIVES**  
As for motive police and prosecution presented two. First, that Dr. Alice was near financial ruin and would benefit from Rheta's insurance. Second, the love of mother for son, combined with the knowledge that Earle was not happy with Rheta.

Defence attorneys moved to refute those theories by evidence that Dr. Wynkoop was potentially wealthy in real estate and money owned her; and that she loved Rheta like a daughter.

**SIGNED STATEMENT**  
Two days after the murder Dr. Wynkoop signed a statement for police in which she admitted causing Rheta's death accidentally while an overdose of chloroform, and then fired a bullet into the corpse in an attempt to conceal the blunder and save her professional reputation.

Dr. Wynkoop refuted the statement, declared it was obtained by police cruelty, trickery and duress. Her first trial before Judge Joseph B. David, was halted at the half-way point, when physicians said continuing of the sessions would endanger her life.

**FREEDOM'S STRONGHOLD**  
Mr. Baldwin declared every country in Europe was looking to Britain as the last stronghold of freedom, "standing like a rock in the tide threatening to submerge the world. It would be an act of consummate cowardice, an act of surrender, to think of having a dictatorship, speed and efficiency are perhaps the idols of this generation, but they do not necessarily go together."

"The wheels of the state coach in Britain may creak, but are not the wheels of the state coaches in Moscow, Berlin, Vienna—even Washington—creaking?"

## TREASURY BILL OVER-SUBSCRIBED

Transaction Sets Record for Low Interest Rate in Canadian Short-Term Financing

**OTTAWA, March 6 (CP).—**Domination of Canada treasury bills to the amount of \$15,000,000 were sold by public tender, today, at what was believed to be the lowest interest rate on record for Canadian short-term financing. The bills were in two series, \$2,500,000 for three months at an average cost to the Government of 2.85 per cent, and \$12,500,000 for eight months at an average cost of 3.12 per cent, dated March 1. They mature June 1 and November 1.

Tenders opened at noon today. They revealed a substantial over-subscription. Hon. E. N. Rhodes, Minister of Finance, and Department of Finance officials expressed themselves as greatly pleased with this new form of financing.

## Machine Guns With Human Shields Used In Robbery of Bank

Six Bandits, Possibly With Dillinger at Head, Shoot Policeman, Seize Girl Hostages and Get Clear Away With \$46,000

**SIOUX FALLS, S.D., March 6 (AP).—**Six robbers raided the Security National Bank & Trust Company with machine guns today, shot a policeman, seized four girl hostages and sped away with \$46,000, pursued by possemen.

# Court of Appeal Finds Only One Barrister Awake

Chief Justice Becomes Exasperated When R. L. Maitland, K.C., Is Only Counsel to Appear in Sixteen Cases Called—Says Situation Reflects on Bar of Vancouver

VANCOUVER, March 6 (CP).—When case after case was called today on the opening of the March sitting of the Court of Appeal and their lordships were told that counsel were not ready, Chief Justice J. A. Macdonald wanted to know whether the Vancouver lawyers had gone to sleep.

It was an extraordinary and unprecedented situation. Some fifteen appeals were listed for hearing, but in none were counsel on both sides prepared to go on.

"RATHER TIRESOME" After delivering six judgments in appeals which had been reserved from the January session in Victoria, the Chief Justice ordered the court adjourned to 2:15 p.m. "This is getting rather tiresome; it is an extraordinary thing that counsel are not ready," commented the Chief Justice, after several applications had been made to adjourn hearings.

The court was informed that counsel in the particular case was not ready.

"I am always awake," he informed the court.

"Yes, but your opponents are asleep," rejoined the Chief Justice, when the opposition lawyer failed to appear in an appearance.

"Is anybody ready to go on with any case at all?" at last inquired Mr. Justice Martin, somewhat exasperated.

This challenge evoked no response. "Apparently no counsel are awake yet," commented the Chief Justice.

After pointing out that counsel were not prepared in a single case which had been called, the Chief Justice said it was a reflection on the bar of the city. He added that the court should strike out all cases in which counsel were not prepared to go on.

This drastic penalty was not carried out, however.

"I am always awake," he informed the court.

"Yes, but your opponents are asleep," rejoined the Chief Justice, when the opposition lawyer failed to appear in an appearance.

## GREW ABOARD BLACK EAGLE

Officers and Men Who Abandoned Concordia On Way to Port

HALIFAX, March 6 (CP).—Through the Atlantic mist south of Nova Scotia, the United States steamship Black Eagle steamed, today, toward New York with sixty officers and men who abandoned the British freighter Concordia, sinking in the Atlantic.

There stricken ship was somewhere southeast of Juncy Sabie Island—the "Graveyard of the Atlantic." A gaping hole had been ripped in her plates in collision with the Black Eagle, forty miles off the island, late Monday.

She has sunk by now, it was believed, but no definite word had come to land by her fate.

Captain A. Murray wireless his ship was "in sinking condition" when he and his crew abandoned her.

MET IN FOG The ships had met in the fog as the Concordia, owned by Donaldson Brothers, of Glasgow, steamed toward the Scottish port, with a full cargo from Saint John and Halifax.

Aboard were more than 400 head of cattle. A number of her complement were cattlemen.

The Black Eagle, bound for New York from Rotterdam, stood by the stricken ship after the collision, and picked up the men as they drifted through the mist in their three lifeboats. Tense wireless messages from ship to ship told the Department of Marine's Chebucto Head wireless station of the collision and the rescue.

NO RETRENCHMENT IN NAVAL BUILDING

Continued from Page 1

British cruiser fleet at that time will contain only thirty-five cruisers that are under-age.

But while naval critics were flustered by evidence that the cruiser fleet will not be allowed to deteriorate further, there was misgivings over the proposed program.

The British viewpoint is not antagonistic towards the building of these vessels, but the evidence is that the British capital ship fleet remains stable under the Washington Treaty of 1920, so that capital ships built during these days are considerably more modern, and therefore more efficient, than ships of equal tonnage now in the British fleet.

The capital ship building program was a direct outcome of a German production of her "pocket-battleships." None of the developments were foreseen at the time of the Washington Treaty, hence the discussion over the present status of the British capital ship fleet.

## NAME OFFICERS FOR NEW YEAR

Victoria Boys' Work Board Chooses Rev. C. G. MacKenzie as Chairman

Rev. C. G. MacKenzie will not act as chairman of the Boys' Work Board of Greater Victoria for the coming year, it was decided at the annual meeting last night.

The new chairman has, for many years, taken an active interest in boys' work, and his election to office was a popular one.

Rev. J. H. A. Watt, the retiring chairman, in presenting his statement for the past year, told of an active season.

The meeting took the form of a dinner in the Y.M.C.A. and a complete slate of officers was chosen.

RE-ELECTED VICE-CHAIRMAN Vivian Shoemaker, who served last year as vice-chairman, was re-elected; James Brown was named secretary; James Walker treasurer; organizer, Harry Ralston, and boys' council member, Rev. J. H. A. Watt.

If future the board will meet every second Tuesday of the month at 7:30 p.m., in the Y.M.C.A., it was decided.

Mr. MacKenzie, Mr. Shoemaker and Rev. G. G. Boothby were appointed to a committee to deal with a proposed trip to Victoria by a team of Indian boys from the United Church School, at Ahousat, during April 5 and 6.

Object of the trip is to enable the Indian boys to join with local kids in athletic games and contests.

SCHOOL ACT CHANGES WOULD RAISE GRANTS

Continued from Page 1

Increase in the top range of school ages is qualified to imply free tuition to the age of eighteen years of completion of Grade XII.

On the Council of Public Instruction, boards would be given power to reserve tuition to a child under seven, in certain circumstances.

OTHER POWERS CLARIFIED Other powers in the bill deal with a clarification of the right of school districts to levy taxes on land owned by non-property owners, minimum and maximum rates being put on special levies.

The bill would remove disqualification of voters at rural school area meetings now placed on the list of voters of school areas. It would, in addition, place a maximum limit on the minimum rate of taxation in respect of property in rural school districts.

COLLECTION MACHINERY School boards in rural school areas would be given express powers of collection to gather in rates levied on non-property owners for school purposes.

Finally, the bill gives teachers on dismissed fifteen days in which to file notice of appeal to a board and to the Council of Public Instruction.

Dr. Weir explained that the proposed new minimum grants, which would be introduced as a Government Bill, would be given to the school boards by the Government.

THEATRE OF STRIKE IN LABOR CENTRES

Continued from Page 1

Their leaders were not given promises of recognition, wage increases and abolition of company unions by Wednesday night.

MINERS DROP TOOLS In the Alabama coal mines, 3,000 more men dropped their tools yesterday, bringing the total of idle miners in the state to 6,500.

Firemen and engineers of the Delaware & Hudson Railroad, voting on a proposal to strike, were reported to have set 5 a.m. Friday, as the time to abandon the throttle and shovel.

At New Orleans, 200 Negro roadabouts quit their jobs on the Mississippi River steamboat landing, asking a raise from 20 to 35 cents an hour and a change in the time-keeping system.

WILL REVEAL PLAN TO CUT PRODUCTION

WINNIPEG, March 6 (CP).—A measure to implement the London Wheat Agreement will be introduced in the Manitoba Legislature next week, Premier John Bracken told members of the assembly today.

Proposed legislation, he said, will reveal details on how Manitoba proposes "to carry out the spirit of the agreement."

## Island Rabbits Will Leave for Orient Shortly

City of Vancouver Island's best-bred Angora rabbits will leave Victoria on March 4, bound for the interior of China, it was announced last night at the British Columbia Provincial Rabbit Breeders' Association meeting in the Y.M.C.A. Building.

This is the first shipment of rabbits to that country, and local breeders are hopeful that their industry will regain prominence in future through this market.

The Angoras will be used in China for making purposes, and their wool clipped for garment making. Only the best will be chosen for the shipment, and it is expected that between fourteen and fifteen members of the local association will contribute their animals to the shipment.

CITY BENEFITS BY ACT CHANGE

School Revenue Would Increase—Free Education Does Not Affect Victoria

The \$10,500 increase in the city's revenue from Government grants toward education as proposed in the bill introduced yesterday in the Legislature is tantamount to a quarter of a mill on the city's levy, it was stated last night.

George H. Deane, municipal school inspector, when told the basis upon which the school grants were changed, said that the heaviest increase would occur in the high school grant, which rises from \$250 to \$380 per teacher. Since there are some fifty teachers at the high school, this would mean that \$36,500 of the increased grant would be derived from this one institution.

ELEMENTARY GRADES The city received a grant for teachers in elementary schools much above the minimum. It is approximately \$330 per teacher, so that the increase in the grant in the lower grades would be much less, although the rise on the basic minimum rate is quite heavy.

Extension of free education from the age of fifteen to eighteen years is not expected to affect the city very materially. Comment with regard to this change was guarded, since it was not known definitely whether it meant that free education would be compulsory up to the age of eighteen.

CRITIC'S STANDARD If it is not compulsory, it will not change the city's educational standard, since free education has been given to all students attending high school for four years. The average age of attendance to high school is fourteen years, and since the high school course takes four years, the student would be eighteen years when he completed the course. It is compulsory, it will increase the cost substantially.

Extension of free education, however, may affect Saanich, where last year an attempt was made to collect fees from students for high school education. This amendment to the school act may be a costly one for the adjoining municipality.

HUNDRED HELD BY VANCOUVER POLICE

Continued from Page 1

They entered the building, and upon knocking, were admitted to the upper floors. Quiet followed.

SUPERINTENDENT JOHN CORBETT of the institute picked out about fifty men from among the number upstairs as men whom he believed were without intent to create disturbance.

The rest were placed in the patrol wagon, a dozen at a time, and taken to the police station for investigation.

Superintendent Corbett said he knew of no reason for the trouble, and told them to the men earlier and told them he was prepared to do anything in his power for their comfort.

MATSQUI SCHOOL TEACHER KILLED

MISSION, B.C., March 6 (CP).—Miss Kathleen Appleby, thirty-seven, teacher at the Matsqui School, was instantly killed when the car she was driving was struck by a west-bound Canadian National Railway freight train at Matsqui Crossing, near here, late today.

The automobile was carried about 100 feet on the front of the locomotive before falling into a ditch beside the right-of-way.

Miss Appleby, who was alone, was on her way to her home at Mission, where she lived with her father, L. S. Appleby.

GOVERNOR RECOVERING

SAN FRANCISCO, March 6 (AP).—Governor James Rolph, Jr., was reported past the danger point in his illness and "on the road to recovery" by his physicians today.

LIKE MAGIC FOR CHEST COLDS, COUGHS

Says Toronto Mother of "Mecca" and Mustard

Mecca, Golden Wonder, Nothing equals Mecca for its peppy form. For coughs and bronchitis, mixed with a little mustard, it works like magic when applied to the chest and back.

## APPEAL WON BY MINISTER

Pioneer Gold Mines Fail in Attempt to Reduce Their Taxes

VANCOUVER, March 6.—An appeal of the Minister of Finance from a Supreme Court order of Mr. Justice D. A. McDonald, commanding him to determine acquisition costs incurred by Pioneer Gold Mines of British Columbia, Ltd., in accordance with the Income Tax Act, was allowed by the Court of Appeal here, today. Mr. Justice MacQuarrie dissented.

The matter in dispute related to the late Conservative regime when Finance Minister J. W. Jones fixed acquisition costs at \$100,000, which figure was increased by the Cabinet to \$200,000.

Not satisfied with this, however, the company invoked the aid of the courts in mandamus proceedings to have the Minister allow it \$1,600,000 for acquisition costs. It contended that it gave 1,600,000 shares for the Pioneer Mines property in 1928, when the stock was worth from \$1 to \$1.50 a share.

acquisition costs were determined at \$1,600,000, the company would effect a saving of some \$200,000 in taxes. The company alleged that low exemption allowed it

## Sir Philip Gibbs Has Pessimistic View of Situation in Austria

**Finds Renewed Sense of Tension in Vienna With Internal Conditions Not Reassuring—All Tell of Anguish, Fear and Anxiety**

By Sir Philip Gibbs, K.B.E.  
(Copyright, 1934, by the North American Newspaper Alliance, Inc. World rights reserved.)

VIENNA, March 6 (By Wireless).—I arrived in Austria on the day when the German truce to Nazi violence expired and when Theodor Habicht, who had delivered the ultimatum, was expected to unleash violent forces against the Dollfuss Government.

There was a renewed sense of tension in this tragic city, where the people's nerves are on edge and no one knows what will happen next.

I sat that evening in the room of a high official, who talked to me with one hand on the telephone, which kept ringing every minute. He was being asked anxious questions, as I could tell from his answers.

It was not true that the German Nazis had crossed the frontier. Austrian troops were not massed on the border of Czechoslovakia. Precautions had, of course, been taken on the German frontier. No incidents had been reported anywhere. Habicht had done a very foolish thing in issuing the ultimatum. An ultimatum was ridiculous if not followed by action.

**LITTLE TO SMILE AT**

Across the telephone this Austrian official, who seemed to have all the latest reports, smiled at me and shrugged his shoulders. Certainly Habicht had made himself ridiculous. But there is nothing else in this Austrian situation at which one can smile, and even that may be amusing for long. One does not know what forces what violence may be waiting to explode.

Germany is not going to surrender her attempt to Nazify Austria unless

she gets great concessions elsewhere. The internal situation in Austria is not, to say the least, reassuring to those who wish well to these people who once were light-hearted folk. I have talked with many persons here, and they tell of anguish, fear and grave anxiety. After the recent events, when they shed each other's blood only a fortnight ago, there is great agony in thousands of homes and hearts. Women are waiting to learn the fate of their men who are prisoners or still in hiding. Their own fate is tragic. As the wives of social Democrats, they are without means of livelihood now that their men are not getting wages or unemployed relief, even if not under arrest.

There is hunger in many Austrian homes and nerve-shattered children need the rescue of charity, which is slow in coming or which their parents refuse to accept because of pride and bitterness beyond all words.

The Frau Dollfuss Fund, helped by the Cardinal Archbishop of Vienna, who is eager for clemency and forgiveness, if it is possible,

is proposed to establish a guild system, with workers and employers consulting together for their common interests. This plan has been explained to me and is now being prepared. But plans for government and theoretical systems are not of absorbing interest at a time when there is no sense of security and when Austria is not only bleeding from internal strife but is a political battlefield on which the Great Powers are maneuvering for position with tremendous and sinister purposes.

I have written cautiously. Words now are almost as dangerous as sparks near a powder magazine, and this little country, cut to pieces by the very powers which now are most desperate to defend its independence, is the flash point of Europe. I will leave my own conviction and apprehensions on one side in this dispatch and report only what has been told me by men with acute anxiety.

In the first place, what is the position of Chancellor Dollfuss and his Heimwehr supporters? Are they able to maintain their policy of national independence against the Nazi influence penetrating Austria and against the hostile forces in their own country? By one of their own spokesmen I am told that there is some danger, and even a certainty, that groups of Social Democrats will go over to the Nazis out of bitterness for what has happened; but he does not think that the working classes as a whole will be lured into a faith which they hate instinctively.

**A CATHOLIC COUNTRY**

It must not be forgotten that Austria is essentially a Catholic country and that its Christian Socialists, among whom are the peasants, detest the Nazi philosophy, with its pagan element, race arrogance and ideas of forming a national religion. Dollfuss himself is a Catholic, and I am told, something of a mystic. In spite of what has happened he is trying to act as a moderating influence between the left and the right. If he can hold the peasants and the loyalty of men like Prince von Starheimberg and Major Fey, who proclaim their loyalty at the moment, he may gradually transform the country and defend it from becoming annexed to Germany. That is the hope of his closest friends.

But independence from Germany means dependence on Italy. Austria cannot do without support. Her financial state at the moment is piling up a bill of costs. Who is going to pay it and for how long? Is it possible for a Germanic people to resist the appeal and pull of a natural alliance with France and support of Germany herself? That is a grave question which only time can answer.

**NO TIME TO WASTE**

Almost everybody with whom I talk seems convinced that only a resolute statement of policy by England, in alliance with France, can save Europe from an explosive disaster. The time is short, they say. The decision must be made now, not next year, or never.

The Czechs are getting alarmed by Italian influence in Austria. Jugoslavia is rattled. The prospect of an Austro-Hungarian monarchy is not fantastic. Prince von Starheimberg and his following are monarchists and make no secret of it. What does Mussolini think about that? What is Mussolini working for in Central Europe with his active and adventurous brain? So people ask in Vienna, and by asking, reveal the terrible game of pull and push, in which Austria is involved.

It is all very dangerous. No one in England yet realizes I imagine, the strength of the forces gathering around this cockpit of the powers.

**Friend Gave Good Advice**

And Dodd's Pills Did The Rest

"I have taken Dodd's Kidney Pills for my kidneys and bladder trouble," writes Mrs. R. W. Langlois, Grande Prairie, Alberta, P.O. Box 100.

"A friend of mine advised me to give them a trial. I had suffered terribly. After taking six boxes of Dodd's Kidney Pills my trouble was completely gone. When you feel worn, tired, and run down, the chances are that your kidneys are at fault. Guard against this trouble by taking Dodd's Kidney Pills."

## In Path of Storm in Southern States

THIS photo shows a scene of the damage left by the recent madcap tornadoes which swept through Georgia, Mississippi and Alabama. The storm resulted in property damage running into the millions and caused the death of at least twenty-three persons, injuring hundreds of others. This picture, made in Henry County, Georgia, shows the wreckage of an automobile after a tree fell on it during the storm.

on both sides—which seems impossible just now—does not reach out yet to the places where working folk are in very dire misery but still feel resentful. This must be said: The Government is anxious to win the confidence of the working classes by fair promises and pledges of a future system of government in which their interests will be safeguarded and in which they will have a share.

**PROPOSE GUILD SYSTEM**

It is proposed to establish a guild system, with workers and employers consulting together for their common interests. This plan has been explained to me and is now being prepared. But plans for government and theoretical systems are not of absorbing interest at a time when there is no sense of security and when Austria is not only bleeding from internal strife but is a political battlefield on which the Great Powers are maneuvering for position with tremendous and sinister purposes.

I have written cautiously. Words now are almost as dangerous as sparks near a powder magazine, and this little country, cut to pieces by the very powers which now are most desperate to defend its independence, is the flash point of Europe. ## NO HOPE FOR NEW REVENUE

**Municipalities Not Likely to Receive Aid From Government This Year**

Whatever hopes the municipalities of British Columbia may have held for additional financial assistance from the Provincial Government were offset by Mayor David Leeming, in his address to the members of the municipal committee of the Legislature, here, yesterday morning.

The Mayor intimated that his recent interview with Hon. John Hart, Minister of Finance, left him almost without a vestige of hope that the Government would be in a position, financially, to provide additional avenues for revenue for the municipalities.

**PROPOSE INCOME TAX**

However, Mayor Leeming, and the Union of British Columbia Municipalities, intend to press for a super-income tax to relieve the municipalities from the cost of various social services which, the Mayor declares, should not be assessed against the land. The appeal for the new income tax will be presented to the Cabinet by union delegates some time today, along with other matters concerning Governmental policy.

In his address, the Mayor was emphatic in his statements concerning the financial position of the municipalities of the province. He said: "We are undoubtedly heading for out and out bankruptcy. It is becoming impossible for them to carry on under the present system. The method of raising taxes is altogether obsolete. Levying on capital was all right in times of growth and expansion, but we have reached the limit, and are now facing a complete break-down."

**CASH AFTER CASH**

Mayor Leeming mentioned the position of Great Britain, which country has emerged with a balanced budget and a cash surplus. "The Mother Country went after the cash, and they got it. We have got to go after the cash where the cash is and, therefore, we are asking, and not politically, that you give us an income tax to provide for social and other services that should not be levied against land and improvements. If you want to see the municipalities survive, you must give us a portion of that income tax to be applied on services," the Mayor stated.

Concerning unemployment relief, Mayor Leeming said it was foolish to attempt to "boundary" unemployment relief. He mentioned particularly the municipality of Oak Bay, divided from Victoria by a single street line, and endeavored to show that the major portion of relief was paid by the city of Victoria. He considered that unemployment relief should be a charge upon the whole of the people through an income tax, or should be taken over entirely by the Provincial or Dominion Governments.

## CONVICTION OF EVANS UPHELD

**Must Serve Sentence of Year in Prison Passed at Vernon**

VANCOUVER, March 6 (CP).—An appeal of Arthur H. Evans, district organizer of Workers' Unity League, from a conviction at the Vernon Fall Assizes for contravening Section 98 of the Criminal Code by advocating the use of force to bring about governmental and economic changes in Canada, was dismissed today by Court of Appeal.

The court opened its March sitting in Vancouver today. Evans had been sentenced to one year's imprisonment by Mr. Justice W. A. Macdonald, who presided over the sittings and has since retired from the bench.

The Crown alleged that Evans made inflammatory speeches during a strike of Princeton coal miners in November and December, 1932. The accused denied that he advocated the use of force.

His counsel attacked, before the Court of Appeal, the trial judge's opinion of Section 98, that it was enacted to stop the teaching of Communism in Canada.

Evans' lawyer stated that Evans was not associated with the Communist party of Canada. He thought that the trial judge's reference to Communism led to a miscarriage of justice.

Since the conviction Evans has been in custody. An application to Chief Justice J. A. Macdonald of the Court of Appeal for bail was refused.

**WAS BURIED YESTERDAY**

Funeral service for Mrs. Eva May Johnson was held yesterday afternoon at 3:30 from Thomson Funeral Home, Rev. A. de B. Owen officiating. Interment was made in Ross Bay Cemetery. The following were pallbearers: J. A. Macdonald, W. George and W. Johnson.

Big Newspaper Campaign Being Undertaken by Tourist Group to Attract People Northward

Embarking on an intensive newspaper campaign, considered the best medium of tourist travel appeal, the Puget Sounders and British Columbians' Association's 1934 programme was announced here yesterday by George I. Warren, Victoria's publicity commissioner.

The association has budgeted for an expenditure of \$23,000, and the campaign for the first time since the organization was launched, will be handled by the Canadian advertising concern, Cockfield, Brown & Co. Ltd. Of the \$23,000, Victoria will contribute \$1,500, and will have equal space with Seattle, Tacoma, Bellingham and Vancouver.

**LAST RITES CONDUCTED**

Very Rev. C. S. Quinlan conducted the funeral service yesterday for John Hugh Johnson, at which there was a large attendance. A profusion of beautiful flowers covered the casket and hearse. The following were pallbearers: F. A. Gowen, L. Sea, O. H. Dorman, H. H. Swinton, J. H. Frank and P. W. Rawson. The remains were laid at rest in the family plot at Ross Bay Cemetery.

## CAPTAIN C. D. NEROUTOS TO RETIRE

Shipping circles of the Pacific Coast will lose a prominent figure in an active sense at the end of the month when Captain C. D. Neroutos, manager of the B.C. Coast S.S. Service, enters upon his retirement after lengthy years of service with the Canadian Pacific Railway Company. The tribute paid to him by Mr. D. C. Coleman, vice-president for the West, is one that will be remembered by all who have followed his career, who know the indefatigable attention he has given to his duties and the ability he has brought to bear on their discharge. Captain Neroutos' name is indelibly associated with the fortunes of the Canadian Pacific coasting service in these waters, for he has been connected with the organization for the past thirty-three years, and he has seen the coastal fleet grow from very small beginnings to a tonnage and standard of equipment that have few if any equals elsewhere. Captain Neroutos was for seventeen years Marine Superintendent, and for six years, following the retirement of the late Captain J. W. Troup, manager of the B.C. Coast S.S. Service. During those twenty-three years very heavy responsibilities fell on his shoulders, but he has the personality which enabled him to carry on with equanimity and entire effectiveness, coupled with a thorough knowledge of the manifold duties of the office. There are few posts on the Pacific Coast which carry such an immense responsibility for the safety of life and property as that of overseeing the affairs of the coastal fleet. It is a matter of vigilance by day and by night, of constant contact with the movements of vessels, of meeting large problems as they arise and of decisions rendered without delay on the basis of wide shipping experience. In these respects Captain Neroutos has fulfilled all his duties with admirable precision and foresight. The Canadian Pacific Railway Company has always had a happy facility in the selection of those on whose shoulders it places heavy responsibilities. That organization made no mistake in its choice of Captain Neroutos for the office he has discharged so ably during the past few decades. The record of the coastal fleet, its present status, and the reputation it enjoys in the marine world, all constitute a tribute to the personnel that was responsible for building it up to what it is today. Among that personnel Captain Neroutos enjoys a prominent place. Victorians especially and members of the shipping fraternity elsewhere up and down the coast, as well as a host of friends, will wish Captain Neroutos many long years of happiness and ease in his retirement.

## THE QUEBEC ACT

Everywhere that the record of Canada is pointed to with pride in the matter of liquor legislation it is the Province of Quebec that has been quoted as the finest example of how temperance can best be promoted. It is the system prevailing there since the beginning of government liquor control, whereby beers and light wines can be sold in duly authorized hotel and other premises, that is regarded as preventing many of the abuses which have crept into the practice of liquor control in the other provinces of the Dominion. Quebec has now the best temperance record of all the provinces of Canada. That would indicate its liquor laws are the best. It is full time that British Columbia amended its Liquor Control Act so that it will more nearly approximate to the legislation that prevails in the French-Canadian Province.

There are a number of reasons why a policy governing the sale of beers and light wines in hotels should be instituted in British Columbia. The liquor situation on this continent has undergone a change of a radical character in the abandonment of Prohibition in the United States. It is a change which, unless a readjustment is made in Canada, is likely to affect very seriously the tourist industry from which the Dominion enjoys so many advantages. That is an industry which brings many millions of dollars annually to Canada. It is one that ought to be conserved by every legitimate means, and at the moment there is no way more essential to its maintenance than in the provision here of those facilities affecting the hotel end of the transportation system that now obtain in the United States, where Canada derives the bulk of its tourist traffic.

The hotels of this province are a unit in the desire for the institution of the Quebec Act, not because of any extra profits they may derive but because without the facilities implied there are prospects of a radical falling off in the tourist traffic which is an asset essential to the well being of hostilities in British Columbia. An element fighting the introduction of the Quebec Act is that of the beer vending parlor. This opposition should not be regarded seriously inasmuch as the change suggested would undoubtedly make for far better conditions affecting liquor dispensation than now prevail.

The element, above all others, that should appeal in the application of the Quebec Act to this province is the effect it would have in eliminating secret drinking. The existing law has developed into a menace to the youth of the province. Hotel room drinking in connection with dances, the flask secreted in the pocket, the motor car rendezvous for the stolen tippie, are all practices that have developed under liquor control as now exercised here. These should be rendered unnecessary, and regarded as wholly undesirable, for there can be no question that they bring moral degradation in their wake and that the character of youth has been sadly undermined in recent years. Exactly the same conditions prevail in other provinces outside Quebec. Where beers and light wines are allowed to be drunk openly in hotels there is no object in concealment and surreptitious debauches, and

the fact that there is such drinking of beverages allowed by the law enables the law to exercise all the safeguards necessary to prevent and punish drunkenness.

The Provincial Government is considering amendments to the Liquor Control Act of this province. If it wishes to be in line with what is obviously the majority public opinion it will amend the legislation to approximate to that which obtains in Quebec. From the standpoint of every consideration, moral and material, such a change seems to be essential. The danger of losing the tourist traffic unless conditions in Canada under liquor dispensation offer at least equal facilities to those of the United States is a very real one. While the moral argument for the change is easily the strongest, that affecting the tourist traffic must as well impress itself strongly on the authorities who are at present leaving no stone unturned to promote conditions that will foster prosperity in the province.

## LETTERS TO THE EDITOR

We imagine the unfortunate person who was "between the devil and the deep sea" must have found his position rather uncomfortable. That is the position we are in, and it is decidedly embarrassing, if not absolutely uncomfortable. A few days ago a reader of The Colonist wanted to know why so many letters to the editor were printed in the paper. This critic said all letters should be scrapped and the space they filled given over to the publication of news. That is one example of what may be called extreme views. A higher authority has called attention to the fact that some of the letters exceed the prescribed space limit. Many letter writers are like public speakers. There are letter writers who when they have taken their pens in hand do not know when to stop. Many public speakers, once they have become warmed up, appear to lose all sense of the passage of time. One thought is the father of a whole family of thoughts, and they do not know when to stop. Public speakers in the legislatures and other places cannot be gagged. Freedom of speech is an article of the constitution, and every representative of the people claims the inalienable right to say the thing he will.

Writers of letters to the editor can claim the same right, but readers of the paper also have some inalienable rights. They have at least the right of protection against letter writers who become bores. The editor in his wisdom has established a rule that any letters which exceed a certain prescribed latitude or longitude shall be denied publication. That is an absolutely necessary limitation. Another condition annexed to the privilege of letter publication is that each communication shall be accompanied by the name and address of the writer, necessarily for publication. Many letter writers do not comply with this rule either in whole or in part. The editor has neither the time nor the inclination to consult a directory or a telephone book for the purpose of finding out the address of the writer of a letter. That is one reason why many letters are not printed in the paper.

Writers who harp upon one subject continuously come within the class described as bores. On the other hand, many of the subjects discussed by letter writers are of considerable public interest, and if all communications were rejected the community would be the loser. So we shall continue the publication of letters which comply with the conditions set forth.

Those who make use of devotion as a means and end generally are hypocrites—Gothie.

Love is not to be reasoned down, or lost in high ambition and a thirst of greatness—Addison.

Equality is the gem in virtue's chapel, and St. Sweetness the loveliest in her calendar—Alcott.

We do not count a man's years until he has nothing else to count—Emerson.

The great city is that which has the greatest man or woman—Whitman.

A smattering of everything and a knowledge of nothing—Dickens.

## The Weather

Meteorological Office, Victoria, B.C., at 8 p.m. March 6, 1934.

SYNOPSIS  
The barometer is rising over this Province, and fair weather is becoming general. Snow has fallen in parts of Kootenay and Alberta, and zero temperatures are becoming general eastward to Manitoba.

Juan de Fuca to Estevan—Light to moderate winds; generally fair and a little colder.

# WOULD TRADE EXCESS DEER

## Nova Scotia and Newfoundland Game Exchange

HALIFAX, March 6 (CP).—Decision of the Nova Scotia Fish and Game Association to offer deer to the Government of Newfoundland in exchange for caribou has found favor with sportsmen, who for years have been expressing the opinion that caribou should be added to the "big game" attractions of the province. It was a time when caribou named Nova Scotia's forest in herald and they provided food for many pioneers, who carved homes out of the wilderness along these shores. Few Indians today can boast of seeing them. Although John MacEwan, Indian chief and veteran guide, claims they are not extinct, he told the association three of his fellow guides had seen a caribou less than two years ago. Visitors from the Old Country of Nova Scotia are surprised that caribou have been so scarce in the province, because they recall that the first caribou exhibited in the animal collection of the Tower of London came from Nova Scotia. It was a time when caribou named Nova Scotia's forest in herald and they provided food for many pioneers, who carved homes out of the wilderness along these shores. Few Indians today can boast of seeing them. Although John MacEwan, Indian chief and veteran guide, claims they are not extinct, he told the association three of his fellow guides had seen a caribou less than two years ago.

## WAS SENT TO ENGLAND

It was captured by Alex McKay, a fleet-footed Hercules among the early settlers in Pictou County, who changed it with Squire McKay for a heifer. The squire sent the animal to Sir John Wentworth, governor, who forwarded it to England and rewarded Squire McKay with grant of 2,000 acres of land at St. Mary's. All Alex McKay got out of it was the heifer and a reputation for physical prowess, but the reputation was something he did not want. Indians had a saying regarding young caribou: "One day old, Munda himself no catch him."

## CULBERTSON on CONTRACT

By Ely Culbertson

World's Champion Player and Greatest Card Analyst

RESCUING THE DOUBTER  
Generally speaking, it is not good policy to "rescue" your partner when he has made a penalty bid, even of a low contract, following an opening bid by you. The most profitable penalties at the bridge table are those which are made on a vulnerable overcall, so unless an opening bidder finds in his own hand compelling arguments against accepting a penalty double to stand, he should accept his partner's judgment. On the contrary, however, when a player has opened the bidding on a hand that contains two long suits, he is taking a grave risk to permit a partner's penalty double of one to stand. An example of a hand upon which a game was sacrificed to opponents were permitted to make a doubled contract of one is the following:  
South, Dealer  
East and West vulnerable.  
♠ A J 10 8 5 4  
♥ K 9 6  
♦ A K 8 4 3  
♣ 7 4 3  
N E W S  
♠ A J 10 6 5 3  
♥ K 9 8 7 6 5 4 3  
♦ A K 8 7 6 5 4 3 2  
♣ A J 10 9 8 7 6 5 4 3 2  
The bidding: (Figure after bids refer to numbered explanations in paragraph.)  
South West North East  
Pass Pass 1♥(1) 1♠(2)  
Dbl.(3) Pass Pass(4) Pass  
1. The correct opening bid.  
2. A sound overcall, even though vulnerable. Certainly East need not anticipate any grave disaster.  
3. South apparently has three trump tricks and in addition has

## Letters to Editor

## YOUTH AND INTERNATIONAL POLICE FORCE

Sir,—In spite of, or because of, the endless discussions prevailing upon modern problems, and more especially their relations to the younger generations, it is reasonable to assume the majority of thinking people have reached certain common conclusions. Among these will be:  
a. That unemployment is the greatest cancer of civilization.  
b. That war is, in the long run, a magnificent creator of unemployment.  
c. That normal conditions (those in which a country, with the goodwill of its neighbors, may enjoy the maximum advantages of its opportunities) are dependent upon stability.  
d. That stability must rest upon security.  
e. That the desired security is conspicuous by its absence.

It is also obvious that without security there can be no security, and therefore as a first step must establish the requisite authority. If there did not exist the authority of the League of Nations, it is very evident that through all of his fifty years of study, but with a biased mind, he has not gleaned one-tenth part of the truth of things that Mr. Abraham was living now, and through his shorter period, but with his unbiased mind.  
Reading the passage in Acts xvii, 22-23, we find that men by intuition worshipped God as being something beyond the comprehension of the majority of men. Paul understood God through his higher sense which was beyond them, and showed that He is not a personal being, but is Being in the Absolute. Paul speaks of the two sons of Abraham and of the difference between their state as an allegory, and not as personal beings at all. What is the explanation, if not ecstacy? If Abraham was living now, and was discovered lying his beloved child to a pile of wood with the object of setting fire to him, what would he be likely to happen to Abraham?

There are many stories recorded which are disgusting and repugnant to the ordinary human mind, and yet supposed to be acceptable to and commended by God, who is supposed to be a just and righteous Judge. Is it not such a case as this that the ecstacy side of the matter should be sufficient to prove that there must be such a side, but the spiritually blind are often willfully ignorant, unwilling to believe that there are some who can see more than they can?

The original need of no correcting, and was only altered (corrected) so-called by the ecstacy side of the matter. It was the only way they could get any sense out of it, and the only reasonable and logical solution is the ecstacy explanation. The true solution, which an open mind can see, can only be the ecstacy explanation.

The so-called myths and fables are really great and important truths put into such language as can be grasped by the minds of those who are sufficiently evolved spiritually to accept them, and also to be hidden in their own meaning from the profane, and very rightly so, as they are thus unable to do any appreciable harm, as they must thereby leave them as being misunderstood, or as not-understood.

As to the punctuations, there are which, with a comma moved from one word to another, alters the sense of the passage entirely, and it is generally understood that in the original no punctuation marks were used at all, so the translators again had inserted them where they thought fit, according to their own conception.

## AGRICULTURE HELD VITAL

Prosperous Condition on the Land Essential to Recovery, Says E. D. Barrow

Given a prosperous condition for agriculture, industry would take care of itself, E. D. Barrow, Liberal member for Chilliwack and former Minister of Agriculture in the Oliver Cabinet, told the British Columbia Legislature yesterday. Mr. Barrow appealed for provincial action to bring about some measure of market and price control in agricultural products, if Federal covering legislation at the present session makes this possible.

Ernest E. Winch, C.C.F. member for Burnaby, followed in a lengthy exposition of socialist thought. Major D. M. MacKay (Liberal, Carleton Place), adjourned debate on the main address until 2:30 p.m. today. From present indications, the debate may be kept open for a few days, to afford opportunity to Premier Pattullo, now indisposed, to close the argument as leader of the Government. Thomas Uphill (Labour, Fort St. James) is expected to follow Major MacKay today.

**MARKETS AND PRICES**  
In a speech of half an hour's duration, Mr. Barrow discussed present-day conditions, and said that a policy of taxing some of the people to maintain others in idleness could not long be pursued. The world was tending towards revival of internal and domestic markets, to the near exclusion of exports. Canada had exported a large proportion of her cereals and a small proportion of her meat and meat products in the past year, only to find that dump prices in outside markets controlled domestic prices offered to the producer at home.

## When Heimwehr Combat Socialists

A Fighting Panorama Unfolded Before Europe Again as Socialists Engaged in Civil War in Austria With Government Troops. The Above Picture Shows Heimwehr Troops as They Searched Civilians on the Streets of Vienna, Barricaded by Hastily Improvised Barbed Wire Entanglements.

portion of her cereals and a small proportion of her meat and meat products in the past year, only to find that dump prices in outside markets controlled domestic prices offered to the producer at home. Means would have to be found, he continued, to give back a definite purchasing power to the farmers who, directly and indirectly, stood for half of the population of the Dominion. It was time to build up home markets, and to produce what those markets demanded. Great Britain had moved to control £215,000,000 worth of production from agriculture, and thirty-six nations had market control legislation, he averred.

**DISCOUNTS WORKS**  
Mr. Barrow said he had no faith in a public works programme through borrowed capital. Five millions could be spent in this way to alleviate unemployment, and on exhaustion of the money, the condition would be as before, but the public debt would have been increased. To his mind, restoration of markets and fair values for agricultural products were essential to any hope of lasting improvement in the economic position of the country. This could be done by legislative control of the minority of those unwilling to co-operate voluntarily in reasonable marketing schemes, Mr. Barrow concluded.

Mr. Winch cited the election manifesto of the C.C.F. to show it was the aim of the group to replace capitalism by institution of a new social order, wherein the natural resources of the country would be socialized and worked in the interests of all the people, and to the exclusion of private profit. On this basis he built up what he classed as his vision of the future, a condition where none should suffer, and all should benefit alike.

**KNOW HARD TIMES**  
The elder Mr. Winch captured the regard of the House as he told of his warm pride in his son, Harold Winch, member for Vancouver-East. He said he himself had borrowed the fare to attend the Legislature, and had worn a \$1.98 pair of trousers and secondhand clothing on the opening day. On the day previous his son had described being out of work for three years, and on relief for seventeen months.

From that point Mr. Winch swung sharply into an attack on the Government benches as representative of a capitalistic system which

the C.C.F. had sworn to eradicate in a fiery address of one hour and forty minutes, the member for Burnaby assailed capitalism hip and thigh.

In tribute to a personal sincerity and the spirited ardor of the attack, the House gave Mr. Winch a thunderous reception at the close of his address.

### Passenger Liner With Fire Aboard Reaches New York

NEW YORK, March 6 (AP).—Fire still blazing in her hold, the steamship City of Montgomery arrived in the harbor today, discharged her thirty-three passengers and was towed out into the middle of the Hudson River.

The ship was turned over to a tug which had accompanied her from quarantine. A call for land apparatus was issued when fire fighters opened the hatches and saw the extent of the fire within. Later she was warped back into dock.

The fire, discovered on Monday when the ship was off the Virginia Capes, en route from Savannah, was in a cargo of resin, turpentine and cotton piece goods.

### ADD BUST TO ART GALLERY

City of Aberdeen Pays Tribute to Former Governor-General of Canada

A marble bust of Lord Aberdeen has been added to the permanent collection in the Aberdeen Art Gallery. The Aberdeen Press and Journal of recent date notes. The bust was executed by a distinguished Scottish sculptor, Miss Ida C. Thorsen, and is both an admirable portrayal of the subject and a beautiful work of art.

The Lord Provost said the acquisition of the bust by the Aberdeen Town Council would be welcomed by the council and the public as recording the features of a great Scottish nobleman who has rendered the State distinguished service in different fields, and as commemorating the long, the intimate, and the happy friendship which has existed between him and his house and the city of Aberdeen.

The high tradition of public duty has been maintained by Lord Aberdeen as Prime Minister, and as Lord Lieutenant of Ireland during two terms, as Governor-General of Canada for five years, and as Lord High Commissioner to the General Assembly of the Church of Scotland on six occasions. These were recognized by the sovereign by his elevation in 1915 to the Marquisate. In all these offices and in his varied public work, Lord Aberdeen had been finely supported by Lady Aberdeen, while her own activities in certain fields have been no less notable and outstanding.

In the city of Aberdeen, Lord and Lady Aberdeen hold an established place in the regard and affection of the community which must be almost unique.

**SPEAKS ON USE OF FERTILIZERS**  
H. O. English Gives Interesting Address to Horticulturists on Vegetable Cultivation  
Soil fertility and the proper use of fertilizer in vegetable gardening formed the topic of an interesting address by H. O. English, head of the agricultural department of the Victoria High School, before the Victoria Horticultural Society last night.

Mr. English pointed out that a number of very important factors had to be taken into consideration even before fertilizer of any type was applied. These, he said, included the quality of seed utilized, the condition of the soil and the type of vegetable to be grown.

Sweet and acid soil, the amount of moisture drainage, irrigation and amount of bacteria present in the soil also had to be considered, he declared. When these things had been determined, he stated that the fertilizing elements best for the various types of soil had to be decided upon after which the methods of supplying the requirements for different crops, the time to apply them and the method of applying them had to be determined.

Among the fertilizers recommended were stable manure, sulphate of ammonia, dried blood, bone meal, sulphate of potassium and nitrate of ammonia. Mr. English gave details of quantities of these various fertilizers to be applied to different types of soil, and also described the best methods of applying them.

## GIVES REPLY TO CRITICISM

Sir Henry Drayton Stresses National Character of His Statements

TORONTO, March 6 (CP).—It is necessary to think as Canadians, not as British Columbians, Ontarians, or Prince Edward Islanders, Sir Henry Drayton said today, replying to the criticism of Hon. G. M. Weir, Minister of Education in British Columbia, who criticized him on Monday for statements he made while on his economy tour through Western Canada.

Accused by the Western Minister of having used figures which created a "wrong impression," Sir Henry said:

**NOT PROVINCIAL**  
"The movement to help the Canadian ratepayers has been initiated through a combination of boards of trade all over the Dominion of Canada. The West is particularly well represented, including some thirty boards of trade in British Columbia. The move-

ment is entirely nation wide and not provincial."

Mr. Weir objected to figures concerning the cost of education, which were quoted by Sir Henry. The Minister said British Columbia had lower per capita education costs than other Western Provinces and Ontario and that when the question was brought to terms of an equivalent dollar, education cost in British Columbia had decreased 17 per cent per capita in twenty years.

"I regret the Minister was not at the meeting," Sir Henry replied. "During the whole trip no provincial figures were ever used, no criticism made of any province or any provincial government. The figures used covered the whole country and I was frank in stating that the East accounted more for the increase than the West. I used round figures: Education cost in 1913-14, \$44,600,000; 1920-21, \$178,000,000; an increase of 304 per cent in which all provinces participated. The exact figures are 1913-14, \$44,258,732; and 1930-31, \$178,701,507."

Regarding education costs are lower in the West, Sir Henry said, "I am very glad to hear that education costs in British Columbia are now coming down and am sure that the efforts of the new ministers of education will be appreciated, should the people of British Columbia be afflicted with burdensome taxation, a very general complaint in Canada as a whole."

## Your Name is in This "Who's Who"

## The Files of the Retail Credit Bureau Contain the Credit Record of Every Citizen, and Every Member of the Bureau Has Access to This Record

**W**E consider ourselves fortunate to be listed in "Who's Who" or the Social Register, but our rating in the files of the Retail Credit Bureau is far more important in our daily lives.

For here, in this "Who's Who" of Business, are listed the credit records of the citizens of this community; how they pay the grocer, the butcher, the other stores, the physician and the dentist—every credit granter—or how they don't.

No guesswork—no hearsay—only facts are recorded. The records

are constantly revised through reports from members, periodical check-ups and a close watch over court records and other sources of information. And each member of this Credit Bureau and over 1,200 affiliated credit bureaus of the National Retail Credit Association throughout the country, has access to these records.

So, prompt payment of accounts builds a credit record of priceless value not only here at home but wherever and whenever credit is needed.

### — FREE BOOKLET — "How to Use Credit to Your Best Advantage"

An instructive booklet will be mailed to you free on request. Address Credit Granters' Association, 1122 Government Street, Victoria, B.C.

### COME!

Chamber of Commerce, Friday, 8 p.m., Frank T. Caldwell, noted retail expert, speaking on "Community Credit Policy." All merchants invited.

Profession How  
To Meet Problem**Dr. T. W. Walker, Superintendent of Jubilee  
Hospital, Indicates to Graduate Nurses Ad-  
vantages of Post-Graduate Courses

USING as a text Pasteur's oft-quoted syllogism that "Chance favors the mind that is prepared," Dr. T. W. Walker, superintendent of the Jubilee Hospital, last evening gave an interesting address on "Nursing Problems" to seventy-five members of the Victoria Graduate Nurses' Association in session at the Nurses' Home. Owing to the adverse times fewer persons today could afford to employ the private nurse; there would, consequently, be a bigger need than ever for the institutional nurse, and that being the case it behooved the nurses to equip themselves as well as they could to fill any possible role that was made available through the channel of nursing.

"Adversity batters one's ideals and often dulls the glamour that surrounds the three-year course and the graduation pin," the speaker noted in beginning his talk. Many of those present could remember times when there were cases for everyone, with good pay. On the other hand, many of the younger nurses, unfortunately, had commenced their training after these good days had come to an end, when there were few cases available for the private-duty nurse and pay unready, "times spent in tutelage were scarce and living difficult."

TWO PIONEERS  
At this point reference was made to two great pioneer nurses, Jean Mance and Florence Nightingale. These women had inspired many a girl to take up nursing. The young student hoped, like them, to make her mark on the world, but instead of this, had found worry supplanting pleasant sentiment. The war had made a great difference. For four years people had lived by the sword in an unreal world. Children who came into the world during that period had grown up to nurse the thing that had made heroes of some and ruined the lives of many others.

PRIVATE FUNERAL SERVICES  
Private funeral services for Baby David H. Madeley will be held at Fayward's B.C. Funeral Chapel this afternoon, Rev. H. P. S. Laidlaw officiating. Interment will be made in the family plot at Ross Bay Cemetery.

INTERMENT IN EAST  
The remains of Dr. Theodore Parker Simpson, who passed away here, suddenly, on Monday, were forwarded to Beaver Falls, Pa., by Carter's Funeral Home, for interment in the family plot.

FUNERAL TOMORROW  
The funeral of Miss Marjorie Sharp, whose death occurred on March 5 at the family residence, 808 Craigflower Road, will take place Thursday afternoon, at 2 o'clock, from the Thompson funeral home. Interment will be made in the Colwood Burial Park.

BURIAL ON THURSDAY  
The funeral of Douglas Dearden, three years and eight months old, son of Mr. and Mrs. Douglas Dearden, 1212 Queens Avenue, will take place Thursday afternoon, at 2 o'clock, from the Sands Mortuary Chapel, Rev. Canon P. A. P. Chadwick will officiate, and the remains will be laid at rest in the Royal Oak Burial Park.

LIMITED DEMAND  
For the present, at least, there would be a limited demand for

graduate nurses. If the general demand on the part of the public were heeded, there would be a greater demand for departmental and institutional nurses.

Of the 135 nurses on the Victoria register, quite a large percentage were without work. This meant keen competition for every available case. In this connection, Dr. Walker intimated that there still were too many nurses in training. The advantages of post-graduate work were amplified. The nurse taking a refresher course should get something for her time spent in this. If the post-graduate course were not worth-while, the Graduate Nurses' Association should voice its criticism. If it was worth-while, all who could should avail themselves of it. Neither Jean Mance nor Florence Nightingale could compete with the modern nurse in aught save her mark on the world, but instead of this, had found worry supplanting pleasant sentiment. The war had made a great difference. For four years people had lived by the sword in an unreal world. Children who came into the world during that period had grown up to nurse the thing that had made heroes of some and ruined the lives of many others.

War had been followed by depression, and depression had resulted in the development of systematic relief, municipal and state, with thousands seeking relief in charity. Work had been scarce for everyone, and the nurse had suffered with others.

NURSING A LUXURY  
The nurse of the past had been accustomed to consider nursing a necessity. The changed economic conditions had demonstrated that with 60 per cent of the public it had become a luxury. Hence the long list of nurses on the register. People could not afford to pay for nursing service; others pressed for state medicine. State medicine, Dr. Walker pointed out, must include state nursing.

Here he quoted Pasteur: "Chance favors the mind that is prepared." The nurse who had a knowledge of stenography and bookkeeping had more opportunities than one without these qualifications. A nurse might extend her sphere also by acquiring a course in laboratory technique. Now, when there was such a slack demand for the private-duty nurse, was the time for the nurse to do her post-graduate work. Special service training was recommended also. This fitted the nurse for community nursing. Post-graduate courses could also be found fitting the nurse for institutional work.

For the present, at least, there would be a limited demand for

**City and District**

Elected Director—Dr. Norman Cook was elected a director of the local Kiwanis Club at the meeting of the organization yesterday. He will be duly installed at the next meeting of the club.

Held on Opium Charge—Arrested by R.C.M.P. officers, Corporal M. T. Berger and Detective Jack Hayward, a Chinese, Cheung Chan, was charged with being in possession of opium and lodged in the city jail. Chan will appear in court this morning.

Inquest Held—Death of Daniel McDonald, diamond driller, on the trail between Stewart and Big Missouri Mine, February 27, resulted from heart failure, a coroner's jury decided, yesterday, at Stewart, according to radio advice received here by the Provincial Police.

Lecture Tonight—A public lecture will be given by Dean Quainton at 8 o'clock, on a well-known book, entitled, "The Conversion of the Church," by Rev. Samuel Shoemaker, of Calvary Church, New York. Admission free.

Case Adjourned—Alexander Vashere, Frederick Walker and John Lanchuk were all charged in the city police court with having in possession of stolen goods, and were adjourned to Thursday.

Entertained Members—Members of the Kiwanis Club were given a special entertainment yesterday at the luncheon meeting, when Victor King, in the role of an East Indian magician, gave a demonstration. He was introduced by R. McKennie in suitable style, while Darrell Spence took part in the cast as the medium.

Plan Barbers' Bill—In addition to special measures for drugless healers, chiropractors, optometrists, and the legal profession, the British Columbia Legislature may be asked, tomorrow, to permit introduction of a public bill in the hands of a private member to amend the Barbers' Act. The bill is being prepared by Byron Johnson, first member for Victoria.

Gets Jail Term—With a rather long and varied police court record for petty stealing, for being drunk, for petty stealing, etc., Alfred Weston was given another term of one month in jail yesterday in the city police court for having stolen a pot of jam from in front of P. Vaughan's store on Douglas Street. The accused pleaded guilty and the judge, in his explanation that he had been drinking.

Eggs Drop—A further two-cent drop in the wholesale price of eggs, yesterday, brought the total price reduction, in two days, to 4 cents a dozen. It was reported by local dealers, "The Montreal market, looking shortly, the Montreal market, looking a big slide on Monday, due largely to weather conditions on the Prairies, and the reduction in Victoria is said to be partly caused by this."

Illustrated Lecture—During the Lenten season, a series of illustrated lectures will be given in St. John's schoolroom, by Rev. Canon Chadwick, each Wednesday evening at 8 o'clock. The lecture for tonight will be on Canterbury Cathedral, giving the great story of that shrine from the earliest days down to the present time. The lecture will be preceded by a short illustrated service.

Goes to Vancouver—Frank Timmis, for many years actively connected with the work of the Junior and Senior Chambers of Commerce in Victoria, has been transferred to Vancouver by his firm. Mr. Timmis was president of the Junior Chamber for the current year, and yesterday his resignation as head of that organization was received with regret by his fellow officers. Frank Timmis is acting president of the Junior group.

Trades Council Tonight—The regular meeting of Victoria and District Trades and Labor Council will be held this evening, at 8 o'clock, in the Labor Hall, corner of Broughton.

**Astonishing!**

That's  
the Only  
Word for  
Such Piano  
Values

These pianos in our window today emphasize the fact that Fletcher Bros. offers by far the best piano values in town. The "Stroud" is world-famous and this particular instrument is like new. The tone is magnificent. A baby grand model in period design, with bench to match. You'll find it hard to believe that this \$1,050 instrument isn't brand new. An opportunity to trade in your upright piano... an unparalleled bargain!

SPEAK IN CITY**

Prominent Winnipeg Lawyer  
to Address Canadian Club  
Annual Meeting

E. J. Tarr, K.C., LL.D., prominent Winnipeg lawyer, will be guest speaker at the annual meeting of the Victoria Canadian Club, to be held in the Empress Hotel, Wednesday evening, March 14, at 6:30 o'clock.

Mr. Tarr will speak on "Pacific and World Relations." An eminent economist in the Middle West, Mr. Tarr attended the Pacific Relations Congress in the Far East in 1931, and Banff Conference last year.

Mr. Tarr was also president of the Association of Canadian Clubs, and is regarded as a highly efficient speaker. He has made an exhaustive study of his subject, and the address should be well worth hearing.

In conjunction with Mr. Tarr's talk, the Canadian Club here will elect officers for the ensuing year, and hear reports of the twelve months just concluded.

The nominating committee, under the chairmanship of Past President W. H. M. Haldane, will meet at the end of the week or early next week to select the slate of names to be submitted for election at Wednesday's meeting.

**President Takes  
Sweeping Powers**

HAVANA, March 6 (CP).—Confronted by reports of increasing unrest, President Carlos Mendieta, today, suspended ten of the most important personal guarantees in the Provisional Constitution, thus giving him sweeping powers to face an emergency.

Alexander Agricola was one of the most famous composers of the School of Netherlands.

**DON'T  
TAKE CHANCES**  
Caffeine is a Powerful Stimulant

WHAT a marvellous machine—your heart! It is about the size of a man's fist. It never sleeps, toasts, holds days. Each hour it pumps 50 gallons of blood.

Don't abuse this remarkable mechanism—even unwittingly—by resorting to tea and coffee for artificial stimulation and false renewal of energy. Among the causes of heart trouble is over-stimulation. And caffeine found in both tea and coffee is a heart stimulant.

There are, of course, many people who can drink tea and coffee in moderation without feeling the ill-effects—without suffering from sleeplessness and other distressing disorders. But not everyone, by any means.

Give your heart a chance. Replace the use of stimulants with Postum (absolutely drug-free). Postum satisfies the normal craving for a hot mealtime drink without containing any of the harmful effects of tannin and caffeine. Moreover—Postum is not acid-forming like some beverages.

Instantly made in the cup at a cost of about half-a-

cent, 45 cups to a 30c tin. Or there's Postum Cereal made by boiling or percolating 20 minutes.

Try Postum for 30 days. We'll start you out on your test by giving you your first week's supply, free. Simply write to the Consumer Service Department, Canadian Postum Co., Limited, at Cobourg, Ontario.

THE WHOLE FAMILY LIKES POSTUM

Has it Occurred to You  
That children like to have the same drink as the "grown-ups"? But you probably don't give them tea or coffee. Make Instant Postum for them using hot milk (not boiled) instead of boiling water. They'll like the taste immediately.

**WITTER AGAIN  
TENNIS HEAD**

Re-elected President of Victoria  
Lawn Tennis Club—Other  
Officers Named

H. B. WITTER  
who was unanimously re-elected president of the Victoria Lawn Tennis Club for the third successive year, at last night's annual meeting.

H. B. Witter was re-elected president of the Victoria Lawn Tennis Club for the third successive year, last night, at the annual meeting. Reports presented by Secretary F. A. Jackson showed that the club had a successful season and that many high honors had been won by its members.

The secretary's perusal of the Club's activities dwelt on the ranking of several of the members, pointing out that Miss Mary Campbell had been placed at the top of the Canadian list and had been runner-up in the Dominion championship. It noted the success of Miss Campbell and Mrs. R. B. Wilson in winning the Canadian women's doubles title, and of the consistent tournament play of Ross Hocking, who was ranked fourth in Canada. Mention of the progress of the Junior members was also made.

LIST OF OFFICERS  
Dr. E. W. Boak, one of the Dominion councillors, gave an interesting account of the meeting he had attended at Toronto, recently, as representative of the British Columbia association. Dr. Boak told of the Davis Cup team plans and gave some data on other matters pertaining to tournament play in Canada.

The complete list of officers follows: Honorary president, C. P. Todd; honorary vice-presidents, Mrs. James Dunsmuir, General Sir Percy Lake, K.C.M.G.; R. H. Pooley, K.C.; R. P. Butchart, Mayor D. Leeming; His Honor Judge Lampman; president, H. B. Witter; vice-president, Dr. E. W. Boak; secretary, F. A. Jackson; committee, Miss M. J. Campbell, D. M. Gordon, W. E. Corfield, Rev. S. Ryall, Dudley Wickett, H. S. Plett and J. D. D. Campbell.

A woman entered a public house and asked confidentially for two glasses of gin.

"What two," asked the barman, "when there's only one of you?"

"The other lady," was the dignified reply, "is lying down outside."

No flour is imported into Switzerland, the domestic mills having a monopoly of this market.

**"JOHNNY SAYS

YEAST for Health**

## Male Choir In Concert At Saanich

In spite of the inclement weather, a goodly number of persons were present to hear the concert presented by the Victoria Male Choir in the Mount View High School, Saanich, on Monday evening.

The programme, under the leadership of Frank L. Tupman, was the musical travesty of some time ago before a Victoria audience, with the addition of two special requests, including the late Sir Edward Elgar's "Land of Hope and Glory," sung by Mr. Tupman, assisted by the choir, as a tribute to the composer.

The various numbers were rendered with artistic skill and efficiency, being given an appreciative reception from the audience. The beautiful singing of Katherine Stokes, and the support of the accompanist, Macquinn Daniels, also her pianoforte solo, added greatly to the pleasure of the evening.

Owing to the unavoidable absence of Norman Whittaker, M.P., who had kindly consented to make an address, Rev. Owen L. Jull, vicar of St. Mark's, spoke briefly, reminding the audience that the concert was in aid of the church funds and needy families within the parish. After the concert, light refreshments were served to the choir in the parish hall by the members of the church committee and their wives.

## TO GIVE CONCERT IN AID OF HOME

A concert in aid of the Orange Home, and under the auspices of Victoria County Orange Lodge, will be held in Burns Hall, Douglas Street, Friday evening, at 8 o'clock.

Those taking part include Frank Merryfield, "The Cornish Wizard," Miss Dolly Rutledge, Bert Moore, Stanley James, Miss Vera and Irene Holmes, Bert White, Miss Frances Merryfield, William Barlow, Miss Jessie Pollock and J. Bourke.

The other two artists on the programme will be Mrs. Swartz, pianist, and Charles Shaw, violinist.

## Clubs—Societies

### W.B.A. Review

Queen Alexandra Review No. 1 W.B.A. held its monthly business meeting on Monday evening at the New Thought Hall. The president, Mrs. Mabel Burnett, presided. One new member was welcomed to the meeting and four applications for membership were received. A bridge party will be held on Friday at 2:30 o'clock at 1230 Government Street, and on March 16 at 8 p.m. court whist will be played in the same hall. A choir has been formed consisting of the younger members of the review and meets every Tuesday evening at the Women's Institute rooms. It was unanimously passed that a donation be given to the Children's Aid Society. The members were reminded of the reception to be held on Thursday afternoon at the Empress Hotel, in honor of Mrs. Paul Smith, M.P.

### Carnegie Rebekah Lodge

Carnegie Rebekah Lodge, No. 45, will meet on Friday at 7:30 p.m. in the L.O.O.F. Hall. A St. Patrick's dance and bridge party will follow. The guest artist will be Miss Madge Wallace, who will appear in Irish dances. There will be prizes for bridge and refreshments served. A good attendance is hoped for.

### Metchnov W.A.

The regular monthly meeting of St. Mary's W.A. Metchnov, will be held on Thursday afternoon at the vicarage, at 2:30 o'clock.

### West Saanich

Mrs. A. R. Anderson held a bridge party recently at her home, West Saanich Road, in aid of the West Saanich Women's Institute painting fund. Prizes were won by Mrs. E. Miles, Mrs. T. Peden, Mrs. T. Sumner, and Mrs. Field; lucky card, Mrs. J. Roberts; and lucky chair, Mrs. T. Peden. Refreshments were served by the hostess, assisted by her daughter, Jean. Those present were Mrs. and Mrs. H. Greed, Mrs. and Mrs. M. Atkins, Mr. and Mrs. T. Sumner, Mesdames E. Miles, W. Kelly, L. Thomson, H. Andrew, Reid, P. Young, J. Roberts, S. Lee, J. Brandon and T. Peden.

### Canadian wheat re-entered the

Canadian market in 1933, after an absence of two years.

## Queen's Alumnae To Hold Annual Meeting Tonight

The annual meeting of Queen's College Alumnae will take place tonight at the Y.W.C.A. when, in addition to the routine business of election of officers and reading of annual reports, there will be an address by Dr. T. A. Rickard on "Our Debt to the University." Mrs. T. A. Rickard will contribute some vocal numbers during the evening, and among the expected guests may be Hon. Dr. G. M. Weir, Minister of Education and Provincial Secretary, who is a Queen's College graduate.

### H. S. Pringle, the retiring president,

will occupy the chair, but has refused to accept renomination after three years' successful tenure of the office.

### Community Group

### In Equimatt to Hold Dance Soon

An enthusiastic meeting of the Equimatt Community Club was held on Monday at the home of the president, Lady Emily Walker. Final details for a dance to be held on April 7 were outlined.

Many articles were donated for layettes, and the serving committee reported that the material donated had been made into garments. Mesdames J. Burnett and J. Quinn were chosen sick committee for March.

It was decided L. Horn and men on his committee will look after refreshments for the dance. Mesdames Walker, Crawford and Horn entertained with musical selections, after which refreshments were served.

## WOMEN'S INSTITUTES

### LANGFORD

The monthly meeting of the women's institute was held recently in the hall on Dunford Road. Mrs. D. Malcolm, the president, was in the chair. Mrs. J. E. MacDonald, the secretary, read the correspondence. The institute endorsed the name of Miss Charlotte Wilton, O.B.E. as head of child welfare work in Canada. She was recommended by Dr. H. E. Young.

### A report of the monthly clinics

held for children of pre-school age was given.

A donation towards buying cod liver oil was made. The following conveners were elected: Public health and child welfare, Mrs. D. B. Bullen; education, Mrs. J. Stuart Yates; agriculture, Mrs. L. M. A. Savory; community betterment, Mrs. G. E. Eldridge; visiting committee, Mrs. H. A. Hinks; legislation, Mrs. J. M. Ritchie; economics, Mrs. H. Pike; institute work and method, Mrs. J. E. MacDonald; League of Nations and publicity, Mrs. H. A. Hinks; delegate to Local Council of Women, Mrs. Savory; official delegates Mrs. J. S. Yates and Mrs. E. MacDonald; quarterly auditors, Mrs. J. M. Ritchie and Mrs. H. S. Dack. A very interesting demonstration was given on the new art rug needle by Mrs. Florence Patterson, of Victoria. Tea was served by the hostesses, Mrs. J. Stuart Yates and Mrs. H. A. Hinks. A presentation was made to Miss Savory.

### LUXTON AND HAPPY VALLEY

The Luxton and Happy Valley Women's Institute met at the home of Mrs. J. Trace for their regular meeting. There was a fair attendance, and Mrs. H. Baxter, the president, took the chair. After the usual business had been trans-

acted, Miss B. Hall gave an interesting talk on the League of Nations and its work. Supper hostesses were Mrs. Trace and Miss Hall. A card party will be held under the auspices of the institute at Luxton Hall on March 12, at 8 p.m.

### SOOKE

A military five hundred card party will be held in Sooke Hall tonight, at 8:30 o'clock, under the auspices of the Sooke and North Sooke Women's Institute.

## Y.P.S. News

### FIRST UNITED

The Young Peoples' Society of First United Church held its regular weekly meeting on Monday evening with the president, Howard English in the chair. Rev. Dr. W. G. Wilson gave an interesting and descriptive talk on his recent visit to San Diego, "the naval base of the Pacific Coast," and Agua Caliente.

George Warren, Jr., entertained the society with moving pictures depicting the beauties of Victoria, including some of its fine residences and gardens, and the picturesque scenery of Vancouver Island. Mr. Warren also showed pictures of trout fishing at Qualicum Beach and Lake Malaga, and scenes in Jasper Park.

The devotional period was in charge of Miss Smethurst, who spoke of the life work of David Livingstone and the example he left for young people. Misses Grace West and Gwen Williamson assisted Miss Smethurst in the service. Piano solos, rendered by Miss Catherine Craig, were much enjoyed.

Fred Wormald, who represented the society in the recent musical contest, was commended for his

conduct.

Miss Higgs—My son ain't half doing well in the army. I've just heard he's been made a field-marshal.

Mrs. Higgs—It's impossible, my dear. He's only been in six months, ain't he?

Mrs. Higgs—Well, it must be a court-martial, then.

Miss Higgs—My son ain't half doing well in the army. I've just heard he's been made a field-marshal.

Mrs. Higgs—It's impossible, my dear. He's only been in six months, ain't he?

Mrs. Higgs—Well, it must be a court-martial, then.

The programme, to be held by the society in the church auditorium on March 26. An excellent musical programme has been arranged. The annual St. Patrick's social of the society will be held next week, when several entertaining and amusing features will be introduced.

### Address at Qualicum

QUALICUM BEACH, March 6.—The Qualicum Beach and Parkville Branch of the Women's Canadian Club had the privilege of hearing Mrs. Garvin speak on "Canada in London, England" at a meeting in the Community Hall, General N. H. Macdonald, chairman for the evening. After a description of the wonderful arrangements which the Home Land had made to welcome the Canadian writers who visited England last year, Mrs. Garvin emphasized the marvellously generous programmes and the unostentatious but perfectly efficient photography and broadcasting work done by the Londoners. The audience was shown how intimately Canada's contributions to industry, discovery, inventions and to drama and art were known in London. Then Mrs. Garvin delighted her hearers by reading two of her own poems, "Sixty Days for This Letter to Reach You" and "Cunawawum Looking at the Stars."

### Saltspring Island

Mrs. Charles Mackintosh was hostess at a delightful tea and bridge party, at her home on Ganges Harbor, in honor of and as a farewell to her sister, Mrs. E. Cameron, who is returning home after visiting her for some time. Three tables were in progress, and the prize winners, with the highest score at their respective tables, were: Mrs. J. D. Halley, Madeline Blon, and M. Pierre Blon. Others present were Mrs. Frank L. Scott, Mrs. Frank Crofton, Mrs. F. C. Turner, Mrs. J. L. Taylor, Mrs. E. Benzie, Mrs. A. J. Smith, Misses Doris Taylor and Betty Abbott, and Mr. Kenneth Halley.

Miss Denise Crofton, of Ganges, is visiting in Vancouver for some days as the guest of her sister, Mrs. Graham Shaw.

Miss Florence Mollett has arrived on the island, after completing her three years' course at the Jubilee Hospital. She will remain with her parents, Mr. and Mrs. J. C. Mollett, of Fulford Harbor, until her graduation in May.

Mrs. Lee, of William Head, has arrived at Ganges, where she is a guest for a few days of Mr. and Mrs. Alex. Broomer.

Mrs. V. C. Best, of Ganges, has left for a few days' visit to Victoria.

### Sooke

Mrs. Hastings and Miss Hastings, who have been spending a week at "Ty Colwyn," have returned to Victoria.

Miss Freda Johnson has left to visit her brother, Mr. Henry Johnson, in Los Angeles.

The news of the death of Mr. Walker Dickie, formerly of "Sunny-side" Sooke, has been received with the deepest regret by a host of intimate friends in the district.

Mary—I didn't know Ted had any idea of marrying you.

Ann—He didn't; that was my idea.

Alas! is the principal variety of flower which has been imported by Holland from Canada.

## Daughters of Nile to Hold Dance Shortly

Miriam Temple No. 2, Daughters of the Nile, will entertain with a dance on Wednesday, March 21, at the Shrine Auditorium. Mrs. Nell McNeill is the general convener, and is being assisted by Mrs. G. R. Ford and Miss Margaret Hemmingsen. This dance promises to be as jolly as the other affairs given by the Daughters of the Nile, and a good programme is being arranged for this occasion.

# Social Activities and Notes of Personal Interest

## Paris Proves Interesting To Club Here

Intimate glimpses of the old city, the centre of French history, romance and culture were presented to members of the Round Table Club at their dinner meeting last night, in Speedie's Cafe, when Comte Jean de Sussanet delivered an address on "Hambles Around Paris."

He reviewed the history of Paris, dealing from its inception as a small island on the Seine to the present city, which has outgrown its ramparts six times, and has a population of more than 3,000,000 persons.

Exceptionally clear lantern slides, accompanied by brilliant historical commentary, revealed a Paris in which the speaker reviewed accumulated treasures of art and architecture. Lofly churches, massive public buildings and famous structures known the world over, were shown, and these, Comte Sussanet stated, had made the city the pride of the French race.

## I.O.D.E. Activities

### Ganges

The following is the annual report of the Ganges Chapter, I.O.D.E. for 1933-34, submitted by the secretary, Mrs. E. Walter, and the financial report presented by the treasurer, Mrs. Frank Crofton. The chapter raised \$296.57 and ten meetings had been held. There had been no outstanding events. In this time of depression the chapter kept together and raised about \$80 more than in the preceding year. The I.O.D.E. Room in the Gulf Islands Hospital had been redecorated, a new mattress provided by the kindness of a member and \$20.00 worth of new linen given by the chapter, which also contributed towards the cost of relaying the kitchen floor. To raise funds a jig-saw puzzle contest was held, also a garden party, bridge party, concert and miscellaneous sale. Prizes were awarded to those obtaining the highest marks in entrance examination and matriculation. The Canadian Geographical Magazine was given to the local high school and I.O.D.E. calendars sent to all schools, public and private, the hospital, etc. The chapter regretted the resignation, through ill health, of their regent, who had acted in that capacity for ten years, the subsequent death of her husband was a great grief to all. The chapter has made Mrs. W. E. Scott their beloved regent, a life member and also honorary regent.

### R. B. McKicking Chapter

Mrs. Bolt, regent of the Robert Burns McKicking Chapter, presided at the monthly meeting, held last evening, at headquarters. The Echoes secretary, Mrs. W. Wilson, asked for books, cards, etc., to be sent for the shower for unemployment relief camps, also for taggers for Alexandra Ross Day, and reminded members of Municipal Chapter annual meeting, on March 22, when members of the Robert Burns McKicking Chapter will be hostesses at tea. Mrs. Bolt was nominated delegate to the Provincial Chapter annual meeting, on April 20. The Valentine party held at the Y.W.C.A. was announced as having been a great success, and Miss Ellen McPherson, convener of the party, was given a vote of thanks. The fern stand was won by Miss Nina Hensley. A donation towards the work in India was voted. After the meeting an interesting paper on "Work in India" was read by Mrs. A. W. Mackenzie. A plea was made for interest in the work, especially in the college started by the late Miss Borsini. A hearty vote of thanks was accorded Mrs. Mackenzie, who was presented with a corsage bouquet by Mrs. L. B. Gossie, first vice-president. A social meeting will be held on April 3, Miss C. McNab as convener, assisted by Miss A.

## To Be Soloist With Spencer Choir

MISS DOROTHY PARSONS, whose delightful soprano voice will be heard in the soprano solo part of "The Swan and the Shrike," at the Spencer choir concert, in aid of the Victorian Orphan Asylum, on Friday night, in the Shrine Auditorium.

### Gonzales Chapter

The monthly meeting of the Gonzales Chapter was held yesterday morning at headquarters, the regent, Mrs. W. C. Nichol, in the chair. One new member, Mrs. George Carter, was welcomed. The convener of the standing committee for 1934 were nominated as follows: Child welfare, Mrs. H. J. Davis; Girl Guides, Mrs. L. B. Kent; Boy Scouts, Mrs. A. F. Guy Shaw; Sea Cadets, Mrs. A. F. Mitchell; hospital library committee, Miss M. Pitts; Mrs. P. F. Curtis; press convener, Mrs. L. B. Kent; etc. etc. The sum of \$5 was voted towards the sum of \$100 for the Gonzales Chapter. The summary of the Provincial quarterly meeting was read, as well as a letter from the endowment fund committee. Members were asked to leave any spare books, playing cards or magazines at headquarters for distribution in the unemployment fund. Two copies of "Echoes" were voted sent to St. Joseph's Hospital and one to the Red Cross Workshop. In addition to those for the chapter's three adopted schools.

### GANGES CHAPTER

The monthly meeting of the Ganges Chapter, I.O.D.E. was held in the Edgewood Tea Rooms, Ganges, with the regent Mrs. V. C. Best in the chair. Various reports and letters of thanks were read by the secretary. A discussion took place regarding the intended activities for the year, but definite arrangements were left over until the next meeting. The matron, Miss M. Tait, showed to the members the pretty colored China tray, etc., she had received from the chapter to match the I.O.D.E. room in the Gulf Islands Hospital. A yearly subscription to the hospital was paid for a local resident in need of assistance. The tea hostesses for the afternoon were Mrs. V. C. Best and Mrs. Desmond Crofton.

### Harvey-Boggs Chapter

The monthly meeting of the Valentine Harvey-Baumont Boggs Chapter was held yesterday afternoon at headquarters, with the regent in the chair. Donations were made for the delegate to Provincial Chapter, Isolated School fund, etc. An interesting talk was given by Mrs. A. W. Mackenzie on the work in India. Mrs. C. J. Saunders was welcomed as a new member. Members were reminded to attend the annual meeting of Municipal Chapter on March 22.

### MALAHAT CHAPTER

Under the convener'ship of Mrs. R. A. Stone, a successful contract bridge contest was held recently at various homes in Shawnigan and Mill Bay to raise funds for the Malahat Chapter, I.O.D.E. Mrs. R. Hunter won the first prize, which was donated by Mrs. G. More, while T. I. Gibson was the winner of the second prize, donated by Mrs. V. H. Stewart-MacLeod.

### ROYAL BRIDE CHAPTER

A special meeting of the Royal Bride Chapter will be held on Friday at headquarters, to finish making plans for the St. Patrick's Day fair. Members are asked to bring small articles suitable for the spinning Jenny.

With an average annual production of 7,000,000 tons, Argentina ranks first as a corn exporting country.

## Reception Plans Are Completed

In connection with the public reception in honor of Mrs. Paul Smith, M.P.P., to be given tomorrow afternoon in the lower lounge of the Empress Hotel, under the auspices of the Provincial Council of Women, of which she was president for several years, invitations have been extended to Mrs. John Hart, Mrs. G. M. Weir, Mrs. G. G. McGeer, and Mrs. Herbert Anson to pour tea.

Mrs. J. W. H. Holmes and Mrs. J. W. Gibson are in charge of the arrangements, which provide for a musical programme by Thelma Johns, soprano; and Dorothy Morton Gough, pianist.

## Save the Pieces

By HANNAH

I suppose you know that when the ladies walked out of the boudoir onto the beach nightgowns flew right back in the window. Well, they did, and they were lovely and more fetching than ever. How anyone wore a nightgown during those horrible days, or rather, nights, of knee length styles, I don't know. But today they are a very different matter. Toe length is the vogue, and what a blessing for the tall ladies of the evening.

If all your favorite gowns were put out in their lacey seams, here are a few ways of saving them for another season. The gown shown on top was made of good durable crepe, but its lace top wasn't any better than it should have been.

The practical owner took matching georgette and made the V-neck bodice with bunny ears of old crepe for a pet trim to replace the former lace yoke.

The middle gown was completely changed by a face drop-shoulder effect where there had been em-broidered crepe built-up shoulders. Ribbon bows form shoulder straps that are decorative as well as necessary.

A round net yoke with puff sleeves has transformed the old gown at the bottom into a new one ready for anything, from a Summer house party to a Fall trousseau. If your gown is one of the old straightline styles, it can be nipped in at the waistline with pin tucks and darts in the front, and left loose in the back to be tied snugly with a narrow ribbon belt.

When does a ship tell a false hood?  
When it lies at the wharf.

## "Rebel" Prince and Fiancee

PRINCE Sigvard, the Swedish "rebel" prince, and his fiancee, Franklin Erika Patek, the actress daughter of a well-to-do German land and market owner, shown as they returned to their East End London hotel after an afternoon stroll. Prince Sigvard, rebelling against the wishes of his father, the Crown Prince of Sweden, and his grandfather, the king, announced his intentions of marrying Miss Patek. The ceremony will be performed in London tomorrow.

## Will Leave on World Tour

Mrs. Andrew W. Mackenzie, of North Hampshire Road, is planning to leave for a Trip Around the World Next Month. Mrs. Mackenzie is the Newly-Elected Regent of H.M.S. Resolution Chapter, I.O.D.E.

## Social and Personal Notes

### Hostess at Luncheon

Mrs. J. W. Fordham Johnson entertained at a ladies' luncheon party yesterday at Government House. The table was attractive with Spring flowers, and the invited guests were Mrs. T. D. Piatello, Mrs. O. M. Weir, Mrs. Gordon Sloan, Mrs. John Hart, Mrs. K. C. MacDonald, Mrs. G. S. Pearson, Mrs. P. M. MacPherson, Mrs. Robert Connell, Mrs. H. G. Perry, Mrs. J. A. MacDonald, Mrs. E. C. Ashton, Mrs. O. C. Jones, Mrs. Sutherland Brown, Mrs. Curtis Sampson, Mrs. W. G. Wilson, Mrs. H. D. Twigg, Mrs. Crow Baker, Mrs. P. E. Winalow, Mrs. Alfred Carmichael, Mrs. J. B. Clearhouse and Mrs. G. A. Bucklin.

### Children's Party

Mrs. William Blair, 2753 Avebury Avenue, entertained at a delightful children's party on Monday afternoon, in honor of the second birthday of her son, Alan. The attractive tea table was covered with a lace cloth and centred with a silver basket of pale pink tulips. Children's favors and a large ice-cream cake decorated in pink and white, added to the little guests' enjoyment, after which the mothers had tea. Mrs. A. H. Dodd pouring. Place cards were set for the following: Mrs. Wesley Strickland and Grant, Mrs. George Campbell and Ronald, Mrs. Stanley Blackburn and "Buddy," Alan Caterall, Mrs. Thomas Kay and Robert, Mrs. George Edwards and Joan-Marie, Mrs. Edward Cooper and Robert, Mrs. A. H. Dodd, Mrs. J. J. Blair, and Miss Beale Williamson.

### Hostess at Tea

Mrs. J. W. Ruggles entertained with two tables of bridge yesterday afternoon at her home in Upholstery in honor of Mrs. H. C. C. Carry, of Vancouver.

### Return from Qualicum

Dr. and Mrs. T. McPherson and Lieut.-Commander and Mrs. J. D. Laurie have returned from Qualicum Beach, where they spent a few days.

### Montreal Visitor

Mr. J. H. Dougherty, of Montreal, is at the Empress Hotel, and accompanied Mr. and Mrs. H. J. Humphrey on their trip to Victoria.

### To Arrive From Paris

Mrs. Stevenson will leave Paris early next month on her way to Victoria to visit her mother, Mrs. Dunsmuir, at Hatley Park.

### Tea Hostess

Mrs. J. Arthur Armstrong, 1533 Gladstone Avenue, entertained a few friends at tea yesterday afternoon.

### From Perth

Mrs. Herbert Wilson, of Perth, Ont., will be a guest at the Empress Hotel for some months.

### At Empress Hotel

Mr. and Mrs. Thomas Camelford, of Dunville, Ont., will be guests at the Empress Hotel for a few days.

### Here From Mainland

Mr. Herbert Fullerton, of Vancouver, arrived at the Empress Hotel, yesterday.

### Back from California

Dr. Helen Ryan has returned to her home here after spending the winter in California.

### At James Bay Hotel

## Vancouver Island

### SAANICH BOARD HEARS REPORTS

Annual Meeting Held at Brentwood—Officers Elected

BRENTWOOD, March 6.—The Saanich Board of Trade held its annual meeting at the Institute Hall, Brentwood Bay, on Monday night. The financial report was read by secretary, J. E. Sladen, and showed a favorable credit balance.

The elections of officers for the ensuing year resulted as follows: Honorary president, R. P. Butchart; president, Captain H. B. Babin; vice-president, Rev. G. S. Barton; secretary, W. H. McNally; treasurer, M. Atkins; auditor, L. W. Goddard; council members, J. E. Sladen, G. Sery, Captain N. Gray, W. Kersey, Hugh Creed, Major Garrard, W. O. Wallace and W. W. Duncan.

A vote of appreciation was tendered the retiring president, Rev. Montague Bruce, and he and J. E. Sladen were voted perpetual honorary members of the council.

Rev. M. Bruce complimented Mr. Sladen, the retiring secretary, for his fine work in that capacity.

The new president, Captain Babin, took the chair and mentioned some of the major projects sponsored and carried out by the board.

### To End a Cough In a Hurry, Mix This at Home

Saves Big Dollars! No Cooking!

Millions of housewives have found that, by mixing their own cough medicine, they get a purer, more effective remedy. They use a recipe which costs only one-fourth as much as ready-made medicine, but which really has no equal for breaking up obstinate coughs. From any drug store get 2½ ounces of Pinex. Pour this into a 16 oz. bottle, and add granulated sugar syrup to fill this big bottle. The syrup is easily made with 2 cups sugar and one cup water, stirred a few moments and cooled. No cooking needed. It's no trouble at all, and makes the most effective remedy that money could buy. Keeps perfectly, and children love its taste. Its quick action in loosening the phlegm, clearing the air passages, and soothing away the inflammation, has caused it to be used in more homes than any other cough remedy.

Pinex is a highly concentrated compound of Norway Pine, famous for its healing effect on throat membranes. It is guaranteed to give prompt relief or money refunded.

## Told How Rasputin Was Slain in Film Suit

### SEA LION AND SEALS BOB UP

Former Observed Twice at Departure Bay—Latter Taken for Serpent

NANAIMO, March 6.—Residents of Departure Bay have been excited for the past week over the appearance of a sea lion that was sighted on two different occasions by Thomas Keighley, well-known resident there.

A week ago, with others, he saw its head emerge from the water near Stephenson's Point. Today he ran across it having a sun bath on the rocks. He was within twenty yards of the monster that he described as twenty feet long and weighing about 1,500 pounds, with a head measuring twelve inches across. As he approached for a closer glimpse, it slipped into the water and headed towards the gulf.

Residents of that section reported a "Caddy" to Dr. Clements, head of the Pacific Biological Station, several days ago. A search was made by the scientists, who found two large seals following shoals of spawning herring.

PRINCE Felix Yusouff, noble of the late Russian court, narrated in a London court how he first tried to poison Rasputin, then shot him and finally battered him to death with a stick and threw him into the river. The prince was testifying at the hearing of his wife's suit against Metro-Goldwyn-Mayer Pictures, Ltd. for \$2,000,000, charging she was libelled in the film "Rasputin and the Princess." She was awarded \$125,000. (4) Princess Irina Yusouff, niece of the late czar, and her husband, (1) Rasputin. (2) Czarvitch over whom the power of healing gave Rasputin his pull at court, seen with the czarina. (3) Sir Patrick Hastings, counsel for the princess, and one of England's leading barristers.

will carry on the work of her late husband, Florence Ziegfeld, when she produces in New York this season the first edition of the famous Follies to appear since his death.

DOMINION Peppery Ginger Theatre Rogers tops all her film roles for thrill, comedy and romance in R.K.O. Radio Pictures' musical extravaganza, "Flying Down to Rio," when she straddles the fuselage of an airplane and gallops through the skies over beautiful Rio De Janeiro. "Flying Down to Rio" is now at the Dominion Theatre.

GRETA GARBO TO BE STAR AT DOMINION

The reconstruction of ancient buildings for historical pictures is generally no problem at all; one consults histories and museums and engravings of the period, and a faithful reproduction is performed.

But in the case of the castle for "Queen Christina," Greta Garbo's latest starring vehicle, coming Friday to the Dominion Theatre, the problem was a considerable one for the excellent reason that the palace burnt down forty years after the spectacular queen's abdication. All plates and drawings seemed to go out of existence simultaneously with the conflagration.

Commencing Saturday the Beverly Hill Billies will open a six-day engagement at the Empire Theatre, appearing on the stage in a typical programme of quaint mountain songs and instrumental music.

The Hill Billies are familiar to all through their radio broadcast over KXN, being the originators of that name, though as tribute to their success they have many imitators. Even to places which are out of the reach of KXN their music is played on phonographs and gramophones, for they have made many records.

The troupe is composed of eight members and their performance has achieved instant success wherever it has been presented during the past two and a half years.

Organization of the Y.M.C.A. and Y.W.C.A. finance campaign, which will be conducted next week, will be explained to captains of the canvassing groups by Frank Paulding, director of the drive, at a dinner-meeting Tuesday, at 6 p.m., in the Y.V.C.A. dining-room.

Vivian Shoemaker, Y.M.C.A. boys' work secretary, and Archie McKinnon, Y.M.C.A. physical director, will also give brief addresses on the work done by the respective departments during the past year, and the value of the instruction to the youth.

PLAYHOUSE Helen Hayes and Robert Montgomery, those popular screen stars, will be seen at the Playhouse Theatre for the last time today, in "Another Language." Wallace Beery will also be seen in "Flesh," an adventurous story of a wrestler's life.

COLUMBIA Billie Burke, who is appearing currently at the Columbia Theatre with Margaret Sullivan and John Boles in "Only Yesterday,"

proves to be a vital, vigorous and thrilling as to subject matter. Perhaps the most impressive of its many virtues is its utter sincerity and honesty. It possesses an earthy vim that is devoid of all pretense and artificiality. Altogether an important picture both in content and technique."

On the screen come two big feature pictures, the first being "After Tonight," starring Constance Bennett, together with Gilbert Roland.

Youth is royally served, and so are screen audiences, in "Chance at Heaven," the third attraction. The leading roles are carried by Joel McCrea, Ginger Rogers and Marian Nixon, and the combination proves to be especially effective.

EMPIRE The following is an extract from The New York American on "Road to Life," the current attraction at the Empire Theatre: "The arch heralded Russian talkie which marks the advent of the Soviet as a maker of sound cinema."

It was recognized that, in spite of the cost, scientific skill must be available for the needs of it. It was admitted that the system at present adopted was not an economic one from the standpoint of the nation. Under it the poor got the advantages of medical attention free. The great middle class was being burdened in the effort to pay for this attention. Legislative action when taken should be along a fair line.

J. H. Humphries, assistant to Grant Hall, first vice-president of the Canadian Pacific Railway, arrived yesterday at the Empress Hotel where, with Mrs. Humphries, he will spend a few months. Owing to ill-health, Mr. Humphries has been out of touch with conditions for some time, but believed that there were evidences, particularly in the East, of a general business revival.

D. C. Coleman, vice-president in charge of C.P.R. Western lines, who has been in the city for some days, will leave Vancouver this week, en route to Winnipeg, while H. F. Mathews, general manager in charge of hotels, will leave later in the week for Montreal.

C. F. Pratt, manager of the Royal Alexandra Hotel at Winnipeg, and Mrs. Pratt, arrived at the Empress Hotel yesterday.

EARTHQUAKE CAUSES NO SERIOUS DAMAGE

WELLINGTON, N.Z., March 6 (AP).—A survey of the region affected by an earthquake shock at 11:46 p.m. on Monday night revealed today there was no major damage after faces.

and no injuries, although two invalids died of shock.

Windows were smashed and chimneys toppled at several points in the southern half of the north island.

"Worry," says a writer for women, "produces wrinkles." Circumstances today there was no major damage after faces.

## MARINE, RAIL and AIR

## IS DUE TO EFFICIENCY

Unfair Competition Not Secret of Japan's Trade Expansion

As a result of preliminary discussions, a conference between representatives of the Japanese cotton delegation in London and the British representatives, the Anglo-Japanese trade negotiations are now proceeding with small hopes of success, according to The Asahi. The conference is less important now, the Japanese view, than when it was first proposed by Walter Runciman, President of the British Board of Trade, for the reason that a trade agreement already has been signed between Japan and India. Yet the outcome of the conference will have a close bearing on Japan's trade. Japan's trade with the British Empire amounts to about 1,000,000,000 yen. In other words, one-third of Japan's foreign trade is conducted with the British Empire.

That Japan is desirous of seeing a conference come to a successful conclusion is to be seen by the readiness with which she accepted the British proposal. As for Britain, she has been anxious for an early opening of the conference. From this it may be safe to say that Britain is planning as much hope on the conference as the Japanese. It is to be hoped that the parties to the negotiations will act in a spirit of mutual accommodation so that the conference may produce results.

**COURSE NOT SMOOTH**  
The course of the conference will not be smooth. Since the Japanese delegates arrived in London last year they met with the British representatives in preliminary negotiations. They were more or less unsuccessful. This immediately precludes an optimistic view. There is a wide difference of view between the British and the Japanese delegates on what matters are to be discussed. The Japanese insist on three things. In the first place, they would have the question of rayon dealt with separately from the question of cotton. In the second, they would have the question of markets in British territories enjoying tariff autonomy excluded from the scope of the conference. In the third place, they would have the question of any Anglo-Japanese agreement should be based on the export figures of 1933.

These claims are strongly resisted by the British. The head of the British delegation declared that if the Japanese insist on these views a rupture of the meeting will be inevitable. The British are finding difficulty in agreeing on preliminary matters cast a dark shadow across the way of the main meeting.

**LACK OF SINCERITY**  
The Japanese are apt to believe that much will not accrue from the conference. There is nothing strange in this attitude. India has not shown sufficient sincerity towards Japan. The Japanese know this, and naturally they are inclined to regard Britain with suspicion. Japan has made concessions at the Simla conference, which resulted in the Indo-Japanese agreement. Yet, India later raised the duties on miscellaneous goods, and not satisfied with this, it is now going to increase its tariff on rayon goods. This attitude of India is a slight on Japan.

For the success of the Anglo-

Japanese trade conference, it is necessary for the British to revise their attitude toward the Japanese. It is necessary for Britain to clear her mind of the idea that Japan's advance in world markets is due to unfair competition or is a dumping. While Britain suspects that there is dumping by Japan, the conference cannot succeed. If the British desire a successful conclusion of the trade conference the first need for them is to realize that Japan's success in overseas trade has been due entirely to efficiency and rationalization.

## OCCUPY NEW OFFICES NOW

Hydrographic Survey Headquarters Located in Post-office Building

Moving from the premises which they had occupied for a number of years on the top floors of the Bank of Toronto Building, the staff of the Hydrographic Survey, Federal Department of Marine, were occupying their new quarters on the third floor of the Postoffice Building, yesterday.

Since the headquarters of the survey on the Coast were established here a number of years ago, the surveyors have moved several times. They were first located in the old Government Street, in 1907. Remaining there until 1911, the office was removed to the Navy Yard at Esquimalt. From there, four rooms were rented in the B.O. Permanent Bank Building, now the Bank of Toronto Building, in 1918. The demands for greater space as the work expanded making it necessary to rent additional rooms, until at the time of removing to the present premises, at the end of last month, the hydrographers were occupying sixteen rooms.

**AMPLE ACCOMMODATION**  
While there is less space in the Postoffice Building than he had for his staff in the Bank of Toronto Building, H. D. Pariseau, chief hydrographer, is well pleased with the accommodation provided, and expects to have everything running smoothly in a short time. The public entrance is Room 319.

Mr. Pariseau, who took charge of the coast survey fourteen years ago, has been largely instrumental in the development of the coast survey, and he is well pleased with the accommodation provided, and expects to have everything running smoothly in a short time. The public entrance is Room 319.

**MAKING ADDRESS**  
In connection with his duty of revising the names contained in the charts now being made of the coast, Mr. Pariseau will address the members of the Spanish Pioneer's Association, next Friday, on "Place Names," paying especial attention to names identified with the Spanish Peninsula and along Spanish Isles.

## DESIRE MORE RECIPROCITY

Scottish Exporters and Ship Operators Anxious for More Trade

A nationalist movement among Scottish exporters and a supplementary interest in Scottish products on the part of Empire businessmen are developments sought by Glasgow business and shipping circles.

Seeing annually a vast amount of lucrative export business disappearing south for export overseas via London and other English ports, trade organizations, particularly the Glasgow Chamber of Commerce and the Clyde Navigation Trust, are uniting in an effort to secure for Clyde shipping a wider export traffic. Reciprocity of Glasgow's exports to Empire countries with the Clyde Navigation Trust, are uniting in an effort to secure for Clyde shipping a wider export traffic.

**LEAVE EVERY WEEK**  
It is pointed out, in this connection, that the Canadian business men especially have the advantage of splendid steamship connection to Glasgow, with Canadian Pacific "Duchess" and "Mont" liners leaving Canada every week throughout the year and calling at Glasgow en route to Liverpool, so that a week can be spent in Scotland in an absence from home of only three to four weeks.

In a recent press interview, on his return from London with Harold M. Ford, commercial manager, Clyde Navigation Trust, after conferring with representatives of the various Dominion governments, Sir Steven Bilsland, president, Glasgow Chamber of Commerce, declared: "The question of reciprocity is now becoming a necessity, for with the development which has taken place with some of our Dominions during the last three years there has arisen a growing importance of getting cargo outwards as well as inwards for the vessels plying to our port."

The object of our visit was to secure co-operation towards devising some means whereby visitors from the various Empire countries who have business to place in this country might be put in touch with manufacturing interests in Glasgow. We want them to visit Glasgow, whether they come in connection with actual orders or contracts or to seek representation with British manufacturers."

Sir Steven also said that the Clyde in the last three years had trebled its inward cargo, and that from Australia and doubled that from New Zealand. They were now on the verge of an important development with Scotland, which in addition, trade was constantly being sought after. It could, therefore, be said that definite progress was being made between the Empire generally and Scotland.

COMMENDED ON WAR STRATEGY

Canadian Destroyers Win Praise From Admirals of British Fleet

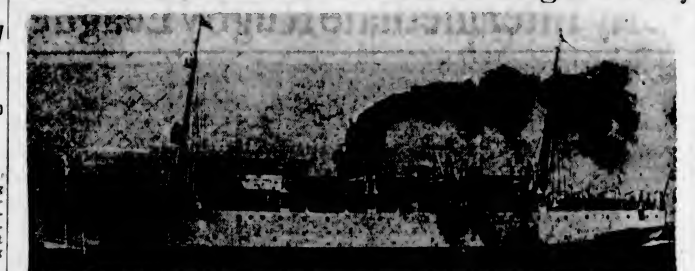

PORT OF SPAIN, Trinidad, March 6 (CP).—Canada's little squadron has taught something to British naval forces. The four Canadian destroyers, on their annual winter cruise in the West Indies with a detachment of the British fleet, were commended by Admiral Boyle of the home fleet, after the first night's operations off St. Kitts when the sleek Canadian vessels successfully evaded an attack by the Imperial cruisers, Achilles and Leander.

"We learned something from you," Admiral Boyle said in a signalled message; and he was just as anxious to know if the Canadians learned anything from manoeuvres of his flotilla.

The following night the Canadian vessels, staging the attack, failed to defeat the cruiser and the Admiral signalled again: "Hope you learned something from us."

Mobility and speed of the new cruisers upset plans of the British destroyers, dashing to the attack in heavy seas against a strong head wind.

## Is Due for Annual Overhaul Right Away

THE hydrographic survey ship William J. Stewart, which has been lying at the dock of the Marine Department in the upper harbor since last fall, will shift to the Victoria Machinery Depot tomorrow and be hauled out on the marine ways for cleaning and painting, preparatory to being placed in commission for her second season on West Coast survey.

## SURVIVING MEMBERS OF CREW TAKEN OFF

CONSTANZA Rumania, March 6 (AP).—Eleven members of the crew of the Italian tanker Santoni, who stayed aboard a fragment of the vessel on Monday when it grounded in the Black Sea and broke in two, were saved today by the port authorities' tug.

Eleven sailors were drowned when they attempted to swim ashore, while five others saved themselves. A storm and heavy fog caused the wreck.

## PILOTS HIS LAST CRAFT

Grace Line Skipper Suffered Stroke on Bridge of Freighter

SEATTLE, March 6 (AP).—Captain O. B. Lindholm, sixty-seven, pilot for Grace Line ships on Puget Sound, Grays and Willapa Harbors, and the Columbia River, suffered a stroke on the bridge of the Grace line freighter, Condor, while the vessel was off Point-No-Point, today, and died while being rushed in an ambulance to the Marine Hospital.

Captain Lindholm, born in Finland, was one of the characters in Peter B. Kyne's Cappy Rick's sea stories, where, as the big Swede, "Hands and Feet," he showed honors with a former shipmate, Captain Matt Peasley, famed sailing ship master, now an Aberdeen resident.

The Condor was bound from South America to the Tacoma smelter. The coast guard cutter Arcata took the pilot off after having been summoned by wireless.

Captain Lindholm was skipper of the freighter Cacique, of the Grace Line, for six years, and was also master of the Santa Alicia, Santa Rita and Rotarian. His home was in Tacoma.

The late Captain Lindholm was a regular visitor to this port since the Grace Line ships started the service between New York and Northwest coast, coming here to take over the stern of the ship. He was well known to everybody in the shipping here, all of whom will learn with regret of his passing. He went as he would have preferred going on the bridge of a ship, with his boots on.

**Train Was Delayed**  
VANCOUVER, March 6 (CP).—The Canadian National Transcontinental train, due here this morning, was delayed for several hours by a rockslide in the Yale subdivision. No one was injured, it was officially reported.

**Officers of Jacox Blame Iroquois for Collision**

SEATTLE, March 6 (AP).—At a hearing today by United States steamboat inspectors into the crash between the freighter Jacox and the ferryboat Iroquois at midnight last Friday off Alki Point, officers of the freighter blamed the ferryboat for the accident.

Carl Christanson, second officer of the Jacox, on duty when the vessels collided, said the freighter had the right of way and he signified intention of taking it by one blast of the whistle. He added the Iroquois answered the whistle signal, but failed to alter her course and the two boats met. Officers of the ferryboat will testify tomorrow.

the goal-getters for the winners, while Patay Callaghan scored the lone counter for the Ohio city team. In the second period Bill Mitchell, a "young" Indian, forward, and Red Radley, who also is a professional wrestler, figured in an old-fashioned punching duel. As Referee Ion attempted to part them he took several blows.

# FINANCE - COMMERCE - MARKETS

## Security Prices Turn Easier at New York Mart

NEW YORK, March 6 (AP).—Financial markets appeared to be musclebound today, and prices in most categories sagged a little in an atmosphere of indecision.

The apathy in stock trading was the most pronounced since January 8 last, with only \$13,010 shares changing hands.

The stand-off attitude of both the public and professional operators were exemplified by the fact that bid and offer prices of some of the leaders were frequently printed in the ticker tape. American Can, with a transfer of only 200 shares, lost 7-8.

All grains finished fractionally to about a cent a bushel lower, and cotton ended with declines of 40 to 60 cents a bale. Rubber and silver futures were steady, and other commodities mixed.

Publication of a statement by a bondholders' protective committee, later denied and corrected, that the Van Sweringen had been in default on some \$400,000 of bank loans, was followed by selling of both Allegheny Corp. stocks and bonds. The former dropped 1 to 2 or more points, and the loans were off around 2 to 3 points at the close. It was explained later that the banks were accepting notes in payment of interest on these loans.

Losses in the tobacco group ranged from 1 to 2 or more points. The gold stocks also eased. Losers of fractions to a point or more included Du Pont, International Harvester, Sears Roebuck, General Motors, Chrysler, New York Central, Santa Fe, U.S. Steel, Western Union and Westinghouse. Case lost about 2, but Auburn held a gain of 1-1/8.

## TWO-YEAR TERM MUST BE SERVED

John Lasco, Convicted of Obtaining Money on Forged Cheques, Sentenced to Jail

Two years in jail will have to be served by John Lasco, who was convicted before Magistrate Jay in the city police court a few days ago on charges of having obtained money on two cheques which he knew to be forged. In both cases the accused had obtained part of the money on the basis of the forged cheques.

## Weary Days—Sleepless Nights

### Wrack the Nervous System

Men and women toas night after night on sleepless beds. Their eyes do not close in the refreshing repose that comes to those whose nerves are right. They are irritable and nervous, weak and worn out, and everything looks dark and gloomy.

Milburn's H. & N. Pills is the remedy that is required to restore them the blessing of good health. They bring back the sound refreshing sleep, tone up the nerves, and impart that sense of buoyancy to the spirits that is the result of renewed mental and physical vigor.

# News of B.C. Mining

## Mining Firm Now Developing Many Omineca Deposits

Consolidated Smelters Carrying on Number of Operations in Northern British Columbia—Gold, Copper and Zinc Values Explored

PROBABLY no mining operations have ever been carried out in British Columbia with less publicity than those conducted in the northern part of Omineca mining division in recent years by the Consolidated Mining & Smelting Company of Canada. Certainly the magnitude of the work is less known to the people of this province. Scarcely a word of their various operations has ever appeared in print.

The region in question is equal in size to the whole of the British Isles. The nearest of the mining properties involved is more than 100 miles north of the Grand Trunk Pacific line of the Canadian National, the closest railway. The chief method of transportation now used is the aeroplane, and the company has kept at least one in the district for several years past. Burns Lake, on the railway, and Stuart Lake, forty miles north of Vanderhoof, have been used as the bases. From these points both men and supplies have been taken to the various camps. Ken Dewar, the veteran flying man, has established an enviable record for continuous and safe flying over the huge tracts of rough and unexplored country.

**REMOTE AREA**  
No small company and no private individual could think of attempting to develop mines in places so remote from transportation as some of these. But the Consolidated, looking to the future rather than to the present, has been expending money for several years on exploration and development work. Positive this is influenced by the prospect of the construction at some time in the future of another railway, westward through the Peace River Pass. Stewart, or some other point on the Coast. Such a line would pass through the region where this development has taken place.

Measured by the number of men employed, the largest operation is that at Slate Creek, in the Grouse River section. Here a large-scale placer development has been under way for many years by W. M. Ogilvie, of Ottawa, and during the last four years with the aid of the Consolidated. A great deal of work has been done on road construction and improvement, and the Consolidated has been able to travel by automobile to a distance of ninety miles north of that point, to a place called the Nation River. It is still a further thirty miles to the Slate Creek camp. Between forty and fifty men are employed, and many years of development and preparation brought the operation to production stage in the Fall of 1932. Installation was completed of a two-cube-yard bucket Sturman high-line plant.

**DEVELOPING LODE DEPOSIT**  
Near Aiken Lake, at the head of the Meslinika River, the Consolidated

is now working on a raise from the fifty-foot level and expects to break through to the Sutherland tunnel almost daily. The ore is being stored in the work goes ahead and this has slowed up progress somewhat. Reports from the mine indicate that there is a good ore showing on both sides of the raise and as soon as timbering has been completed, stopping will be started.

The next objective will be to pick up the ore showing from the 1000-foot level, officials state. On the Highland Lase operation there is said to be about three years' ore in the ton.

The company is now working on a raise from the fifty-foot level and expects to break through to the Sutherland tunnel almost daily. The ore is being stored in the work goes ahead and this has slowed up progress somewhat. Reports from the mine indicate that there is a good ore showing on both sides of the raise and as soon as timbering has been completed, stopping will be started.

The next objective will be to pick up the ore showing from the 1000-foot level, officials state. On the Highland Lase operation there is said to be about three years' ore in the ton.

## HIGHER VALUES CONTEMPLATED

One Shipments From Beaver Silver Expected to Give Better Showings

When the next shipment of ore is made from the Beaver Silver property about the middle of the present month, officials of the company expect an even better showing than was made in the last shipment made in December when the ore averaged 230 ounces of silver to the ton.

The company is now working on a raise from the fifty-foot level and expects to break through to the Sutherland tunnel almost daily. The ore is being stored in the work goes ahead and this has slowed up progress somewhat. Reports from the mine indicate that there is a good ore showing on both sides of the raise and as soon as timbering has been completed, stopping will be started.

The next objective will be to pick up the ore showing from the 1000-foot level, officials state. On the Highland Lase operation there is said to be about three years' ore in the ton.

## Old McKinney Camp Opened; Form Company

Reopening of the old Camp McKinney mines, large producers in the early days, is forecast in the announcement that Reed, Henderson & Vaux, Ltd., of Vancouver, have acquired control of the Cariboo mine and adjoining properties. Plans for reopening the camp were completed at the end of last week following the arrival on the Coast, of W. C. Fox, of Toronto, owner of the Sallor group, which he acquired in 1928. After spending many years in the mining and brokerage business Mr. Fox retired in 1910.

It is understood that the new company is known as Camp McKinney Consolidated, Ltd.

## PROGRESS AT MINE RAPID

Kootenay Nevada Property Produces \$36,000 in Development Ore

With a production of \$36,000 in development ore and an active programme of tunnelling, cross-cutting and drifting underway since last Spring, the Kootenay Nevada Mine, six miles from Nelson is assuming considerable importance in that district, according to word received here.

The mine is developed by 1,150 feet of shaft, 250 feet of raises and 100 feet of cross-cuts. Extensive tunnelling has disclosed a series of ore shoots 400 feet long and through a vertical range of about 200 feet. A car load shipment produced the ore to average approximately \$40 a ton, with gold at \$20.67.

The company controls nine claims and is served with power from both Nelson and the West Kootenay power companies.

M. A. Tuck is president and Frederick Field, secretary.

## TRAM IS STARTED AT UNITED EMPIRE

Work Commenced on Aerial Line at Portland Canal Property—Power Available

Equipment is now being assembled at the bottom of the mountain and work will be rushed in constructing the 6,000-foot aerial tramway at the United Empire property on Bear River, two and a half miles from Stewart, in the Portland Canal district. The operations are located 2,400 feet up the mountain and since control was taken over last August by Col. Victor Spencer and associates, more than \$60,000 has been spent in development.

The main values are in silver with substantial values in gold and zinc. There are twenty-one claims in all with fifteen Crown granted. A 2,000-foot power line has been completed and good progress in driving the tunnel has been made since power was turned on last month.

The new aerial tram will be able to transport 150 tons every twenty-four hours and already eighty-seven tons of high-grade ore has been sacked for shipment. A one-half cut tunnel is being driven 1,500 feet to intersect the known ore body.

A young man proposed to a girl and was accepted. After their tender transports were over they fell into serious talk. "Now that we are engaged," said the girl, "we must begin to economize. From now on, darling, that you won't do anything you can't afford." The young man laughed grimly. "If I promised you that," he said, "I'd have to break off our engagement."

## That Body of Yours

By James W. Barton, M.D.

**SALT CAUSES SOME SKIN AFFECTIONS**

Now that it has been found that many (but not all) cases of certain ailments are due to various foods, the study of the effects of foods and other substances on the body is being carried on throughout the entire world.

Many skin ailments are due to foods and other substances, and while the various diseases and ailments help cure the condition for the time being it soon breaks out again, causing itching, pain, and often much discomfort.

Dr. Joseph Jordan and Charles cleared the Laughing Brook and rushed over to the thicket in which that beautiful bird had been perched. He plunged in, but there was no one there. Frantically he searched, but that thicket was empty. Then he stood still and listened. Not a sound reached him. It was as still as if there were no other living thing in the Green Forest. The beautiful stranger had slipped away as silently as a shadow.

All the rest of that night Lightfoot searched through the Green Forest, but his search was in vain. The longing to find that beautiful stranger had become so great that he fairly ached with it. It seemed to him that until he found her he could know no happiness.

Next Story: A Different Game of Hide and Seek.

## TO CONTINUE OPERATIONS

Tuscarora Gold Mines Group to Be Developed by Local and Trail Men

Staked over three years ago, before the present gold excitement, the Tuscarora Gold Mines Group is to be developed by a syndicate which includes several prominent Victoria and Trail men. After some development work has been done this Spring, a company is to be formed to carry on the operation at the property.

The Tuscarora Gold Mines Group consists of ten mineral claims in the heart of the Bridge River district. It runs from the main Bridge River Road to Gun Lake. Approximately 400 yards away, in an easterly direction, lies the B.R.X. While 500 yards away, in a northerly direction, lies the Wayside. The latest tunnel on the B.R. Consolidated property is going in about 500 yards away from the Tuscarora, to intercept a vein which is said to run directly towards the latter. The group is located at the foot of Cadwallader Canyon, on which are situated the Pioneer and Barlowe.

Assays taken from surface outcroppings show values at over \$3 in gold at \$20.67. Geological conditions are said to be exceedingly favorable. Outcrops of diorite are persistent, and work done on the adjacent B.R.X. and B.R. Consolidated properties are helping to prove up the Tuscarora.

C. R. Hewer, general manager of Bridge River, and who operates the store at South Forks, is one of the trustees of the Tuscarora Gold Mines Syndicate.

"While I am not an engineer," stated Mr. Hewer, "I have had considerable experience around mines, have inspected practically all of the active properties in the Bridge River district, and have convinced myself, at least, that the rich gold-bearing California vein, the discovery of which, on the B.R.X., caused so much excitement, runs through the Tuscarora Group. Of course, the gold-bearing rock is piled from outcroppings on the Tuscarora might be there for some other reason than the proximity of the California vein. That is for a competent engineer to say after more development work has been done on the group; but it is my belief, and the belief of several engineers to whom I have spoken, that the trend of the richest gold-bearing veins is along Cadwallader Canyon and through Tuscarora.

Further development work will be commenced on the Tuscarora Group as soon as weather permits, in preparing for a diamond drilling campaign. Present working plans call for stripping, trenching and test pitting, to determine the location for diamond drill holes to cut the ore widths at depth.

## WAYSIDE LETS BIG CONTRACT

Enters Deal to Have 5,000 Feet of Diamond Drilling Done at Bridge River

Wayside Consolidated Gold Mines, Ltd., has let a contract for 5,000 feet of diamond drilling to be done at its property in the Bridge River property and the work is now under way. It is reported.

A number of flat holes will be put into the foot wall structure together with deep holes to determine the best location for a shaft. Sinking of the main working shaft is expected to be under way with deep holes to be carried down to the fifth level. Lateral work is proceeding on five horizons, with all faces reported in ore. It is the intention of the management to proceed with the installation of a 100-ton mill as soon as snow conditions permit, with the object of bringing the mine into production before the end of the year.

## That Body of Yours

By James W. Barton, M.D.

**SALT CAUSES SOME SKIN AFFECTIONS**

Now that it has been found that many (but not all) cases of certain ailments are due to various foods, the study of the effects of foods and other substances on the body is being carried on throughout the entire world.

Many skin ailments are due to foods and other substances, and while the various diseases and ailments help cure the condition for the time being it soon breaks out again, causing itching, pain, and often much discomfort.

Dr. Joseph Jordan and Charles cleared the Laughing Brook and rushed over to the thicket in which that beautiful bird had been perched. He plunged in, but there was no one there. Frantically he searched, but that thicket was empty. Then he stood still and listened. Not a sound reached him. It was as still as if there were no other living thing in the Green Forest. The beautiful stranger had slipped away as silently as a shadow.

All the rest of that night Lightfoot searched through the Green Forest, but his search was in vain. The longing to find that beautiful stranger had become so great that he fairly ached with it. It seemed to him that until he found her he could know no happiness.

## Outstanding Values for the Half Day Today

### Inner-Belt Corselettes

On Sale at ..... \$1.25  
Medium Length Corselettes of fancy peach cotton, with plain top, strong inner belt of coutil, and four hose supporters. At each ..... \$1.25  
—Corsets, 1st Floor

### Women's Crepe Nightgowns

Soft English Crepe of superior quality, in white or guaranteed fast colors. Attractive short-sleeved styles, plain or lace-trimmed. Dainty pastel shades include primrose, Nile green, baby blue, shell pink, orchid and white. Large size. Special, each ..... 95¢  
—Whitehall, 1st Floor

### St. Patrick's Day

Saturday, March 17

New Cards, priced up from ..... 5¢  
New Designs in Napkins, per packet, 5¢ and ..... 15¢  
Seals and Cut-Outs, per packet, ..... 10¢  
—Bishopstons, Lower Main Floor

### NIFTY LITTLE NOVELTIES

For Consolation or "Booby" Prizes, 15¢ and 25¢ Each .....  
—G.N. Section, Lower Main Floor

### Comforters Towels

Good Values Half-Day Specials  
Cotton-Filled Comforters in reversible check ..... \$1.75  
covers, each .....  
Children's Cotton-Filled, Cot-Size-Com ..... \$1.00  
forters, each .....  
Wool-Filled Comforters in floral satin coverings, with plain satin panels, very attractive, each ..... \$3.49  
—Staples, Main Floor

### Luncheon Cloths

\*Half-Day Specials  
Oyster Linen Luncheon Cloths in colored check designs. Size 54 x 54 inches, ..... \$1.25  
each .....  
—Staples, Main Floor

### English Printed Bedspreads

Attractive designs on sand backgrounds. Size 70 x 90 inches, ..... \$1.49  
Size 80 x 90 inches, ..... \$1.69  
each .....  
—Staples, Main Floor

### Infants' Crib Sheets

Good Quality Flannellette, and size 27 x 38 inches, ..... 20¢  
each .....  
—Staples, Main Floor

### On the Bargain Highway

Women's Rayon Pyjamas. A Suit ..... 59¢  
One and two-piece styles, tailored and lace trimmed. Wide legs.  
Men's Cottonade Pants. Regular, 41-50, \$1.25 ..... 99¢  
for .....

for .....  
60 Only, Shirts with collar and pocket. Brown, fawn and navy. Sizes 14 1/2 to 17.  
—Bargain Highway, Lower Main Floor

## DAVID SPENCER LIMITED

Robert Rein, in The New York State Journal of Medicine records their own experience and that of others in treating various skin ailments by simply cutting down the amount of salt used with the food either in cooking or at the table.

It would seem that certain skin ailments are "sensitive" to salt. For instance, when patients with eczema and hives (urticaria) were given large doses of salt by the mouth, after having been kept off salt for several days, they nearly always showed a marked increase in the symptoms. Giving these patients an increased amount of salt caused a severe shock and the large doses had to be stopped; the itching usually becoming unbearable.

These investigators found that by using table salt mixed with other salts—potassium, calcium and magnesium, which overcome the harmful part of common salt, the sodium—there was no increase in the symptoms.

This combination is known as an "equilibrated" salt mixture and was found to be helpful in a variety of skin ailments, including eczema, acute (pimples), hives (urticaria) and tubercula.

Now as almost everybody needs table salt in the body, and wants some in and on his food, the combination mixture mentioned above should be of help in preventing or lessening the severity of the attacks of these various skin ailments.

The thought then where an eczema persists for a long time, where hives occur frequently, or where pimples seem to come in "crops," it might be well to try cutting down on the salt intake, as it may be the salt in some of these foods that is causing the "lighting up" or increase in the symptoms.

The little boy had been sent to the local chemist to get some liniment and a special kind of China cement. "Do you want the two things in separate packets?" asked the assistant, as soon as he had attended to the boy's demands. "Yes, please," answered the little fellow. "I think it would be as well. The cement is for mother; she wants to mend the teapot. The liniment is for father; mother broke the teapot over his head!"
